READY FOR **ACTION**

2009 / 2010

VIDEO (PROFESSIONAL CAMERAS)

Through years of expertise camRade has created an extended range of professional camera bags. Wherever you go, camRade offers you maximum protection by using high quality material such as Cordura 1000 and specially made, soundproof, rain cover material. camRade ensures the professional will continue using their camera in the most extreme circumstances.

camBags

The camRade camBag is a high quality well padded camera bag. camRade bags are made from 100% cordura, the interior is pvc coated this makes the bag more durable, water-repellent and gives a better equipment protection. All camRade bags now have a non slipping extra protective bottom, easy access due to the dual zippers and enough external pockets for accessories. Suede shoulder strap and white balance card included.

HEAVY DUTY BAGS

This is a new line of camRade camera bags. The HD small and large are designed to give maximum protection for your equipment. You can adapt the inside to the personal set up of your camera and leave enough space to store all necessary accessories in the inside of the bag. Due to the square design and the 'heavy duty' protection you are able to put more bags on top of each other without damaging your equipment.

Beside the Video and Audio product lines, camRade offers all kind of protection. Carrying bags and accessories for monitors, tripods and lenses. camRade has also developed an ingenious solution for the transportation of your lighting equipment that can be used as a backpack. Our bags are made of high quality material, conforming to the high standards, associated with all camRade products.

travelMate 720

travelMate

travelMate is an extremely practical backpack, ruggedly made from Cordura 1000 material, and designed to carry cameras and accessories with maximum ease. The backpack is configured so that weight is evenly distributed across shoulders and hips, thereby achieving optimum comfort. travelMate is particularly suitable for motorcycle use or simply when you need to keep both hands free. The TM Handy I now also includes a notebook computer pocket.

desertSuit

The desertSuit is the latest feature in camera covers. This suit protects your camera from dust and water, it is made of the same noiseless material as the wetSuit so it will reduce the noise around the camera. Because the cover is manufactured in a white reflecting material it minimizes the heating effect of the sun.
