

Marshall Electronics

BROADCAST MULTIMEDIA DIVISION

**PRODUCT
GUIDE** **SUMMER** **2011**

MD Monitors

Marshall's MD series of rack mount monitors offer a flexible modular solution to system integration. These rack-mountable monitors can be configured with a variety of video inputs that can be "swapped" or interchanged in the field based on your evolving needs and requirements. This eliminates the need to upgrade or replace equipment when a different input or application is required. This "future proof" solution provides flexibility and reassurance when necessary, especially in multi-monitor rack mount units.

These fully-featured monitors come in a variety of sizes and configurations. All models include Status Display, False Color Filter, IMD (In-Monitor Display), Markers, Freeze Function, Color Temperature Presets, RGB Gain / Bias Adjust, Pixel-to-Pixel, Blue Gun, Hard Tally, and more. A variety of modules will become available including the availability of 3G-SDI with loop-through, Fiber-Optic input/output modules, and more.

These MD monitors are the WORLD'S FIRST HD MONITORS WITH DIRECT FIBER OPTIC VIDEO INPUTS. Marshall's MD monitors integrate Telecast Fiber System's TeleCube™ Fiber-Optic HD-SDI transmission input/output modules. These fiber modules deliver the industry's broadest range of digital rates while maintaining pristine signal quality that broadcasters and integrators demand.

With broadcast production facilities looking to the future with 3Gb/s SDI integration, Marshall fills the void with fully-featured, high-end monitors with full 3G-SDI support. For distances beyond 150 meters, fiber-optic signaling may be required. To fulfil this need, Marshall looked to Telecast Fiber Systems, the company that developed fiber-optic video technology for television broadcast production. Telecast's comprehensive systems are used worldwide.

Optional Input Modules

IMD/Tally Configuration

| TEST MODEL | SCREEN 1 | SCREEN 2 | SCREEN 3 | SCREEN 4 | SCREEN 5 |
|----------------------|----------|----------|----------|----------|----------|
| TEST MODEL | ON | ON | ON | ON | ON |
| TEST COLOR | RED | GREEN | YELLOW | BLUE | PINK |
| TEST STRING | TEST | TEST | TEST | TEST | TEST |
| TEST BACKGROUND | 25% | 25% | 25% | 25% | 25% |
| TEST ALIGNMENT | CENTER | CENTER | CENTER | CENTER | CENTER |
| TEST TALLY SOURCE | LAN 100 | LAN 100 | LAN 100 | LAN 100 | LAN 100 |
| TEST LED TALLY | OFF | OFF | OFF | OFF | OFF |
| TEST ON-SCREEN TALLY | OFF | OFF | OFF | OFF | OFF |
| TEST TEXT TALLY | OFF | OFF | OFF | OFF | OFF |

Use the "Text Enable" function to turn the MD Text feature ON. This will cause the "Text String" to appear on the lower portion of the screen. This provides the user with a 16 character on-screen text string. The color, background (opacity), and alignment of text can also be managed by the operator. This same menu allows control of Tally Source. Tally lights (both LED and on-screen) can be enabled/disabled and also set to match "Text String" color.

MD Series Network Control

Each V-MD series rack includes a LAN port with a built-in web server. This allows the operator to visually monitor and control any or all V-MD series units that are connected to the LAN. Any function that is addressable from the front panel of a V-MD series monitor can be accessed via any popular web browser -- even those running on a wireless device.** The rear panel LAN 100 port connects the unit to the LAN.

Once connected, the user simply locates the IP address of any one of the units connected to the LAN. This is accomplished by going to the MAIN MENU of any of the connected units and selecting the NETWORK CONFIGURATION submenu. This will then display the IP address of that unit. V-MD units are shipped with the DHCP mode enabled.

Marshall Electronics V-MD563

Network Configuration

- Exit
- Remote Enable: Global
- Configuration Mode: DHCP
- IP Address: 192.168.0.1
- Subnet Mask: 255.255.255.0
- Default Gateway: 192.168.0.9
- Host Name: Monitor014
- Web Authentication: Off
- Username: admin
- Password: password

Simply type this IP address into the address bar of your browser and the home page for that unit will appear. It is possible to poll your LAN for all other MD units connected by accessing the NETWORK tab from the Top Menu.

Navigator

Click on a monitor to see its web page in the main window.

| Host Name | IP Address | Model |
|------------------|--------------|---------|
| marshall-563-02* | 192.168.0.82 | V-MD563 |
| marshall-563-01 | 192.168.0.81 | V-MD563 |
| marshall-434-02 | 192.168.0.56 | V-MD434 |
| marshall-434-01 | 192.168.0.55 | V-MD434 |
| marshall-503-02 | 192.168.0.34 | V-MD503 |
| marshall-503-01 | 192.168.0.33 | V-MD503 |

SCREEN 2: [Red] [Green] [Yellow] [Blue]

SCREEN 3: [Red] [Green] [Yellow] [Blue]

SCREEN 4: [Red] [Green] [Yellow] [Blue]

The user can then control multiple networked MD monitors at once using a single browser page. The user may select which monitor(s) they wish to control and send commands to those particular monitors. The browser provides real-time status of any connected monitor, ensuring consistent signals / feeds and so forth.

** A wireless hub must be part of the LAN to have this function

False Color Filter Features

The False Color filter is used to aid in the setting of camera exposure. As the camera Iris is adjusted, elements of the image will change color based on the luminance or brightness values. This enables proper exposure to be achieved without the use of costly, complicated external test equipment. To best utilize this feature, you must understand the color chart and have a basic understanding of camera exposure. Normally, when shooting subjects like people, it is common practice to set exposure of faces to the equivalent of approximately 56 IRE. The False Color filter will show this area as the color PINK on the monitor. Therefore, as you increase exposure (open the IRIS), your subject will change color as indicated on the chart: PINK, then GREY, then a few shades of YELLOW. Overexposed subjects (above 101 IRE) on the monitor will be shown as RED. In addition, underexposed subjects will show as DEEP-BLUE to DARK-BLUE, with clipped-blacks indicated with a FUCHSIA-like color. Lastly, the color GREEN is used to indicate elements of the image that are approximately 45 IRE. This represents a "neutral" or "mid-level" exposure commonly used for objects (not people).

| CAMERA FEED WITHOUT FILTER | WITH FALSE COLOR FILTER | DESCRIPTION |
|---|---|---|
|  |  | OVEREXPOSED Overexposed objects will display as RED |
|  |  | UNDEREXPOSED Underexposed objects show as DEEP-BLUE to DARK-BLUE |
|  |  | PROPERLY EXPOSED Properly exposed objects will display elements of GREEN and PINK |

V-MD434 2RU Quad 4.3" Rack Mount Monitor (Frame Only*)

| | |
|---------------------------------|---|
| Display (Viewing Area) | 4.3" x 4 |
| Resolution (Pixels) | 800 x 480 |

Rack Mounted / Stand-Alone Monitors with In-Monitor Display (IMD) Functionality

Marshall Electronics offers the industry's widest lineup of LCD panels with In-Monitor Display functionality. These monitors and racks are cost-effective "all-in-one" solutions for post production houses, broadcasters, and mobile units. Marshall's IMD series is a fully-integrated solution that allows UMD information and tallies to be displayed directly within an LCD flat panel monitor, while saving precious rack space. A variety of features are readily available including on-screen Video Time Code, three-color "Soft" Tallies, and Audio Presence Indicator. These displays also include our RotoMenu™ feature which allows fast, direct, and easy menu navigation.

Marshall's IMD monitors integrate easily with existing Tally systems and controllers, while supporting Image Video, NVISION, TSL, and MEI protocols. Also a perfect solution for large Video Wall applications and systems. Can also be used as standalone displays with HD-SDI loop-through.

IN-MONITOR DISPLAY (IMD) FEATURES

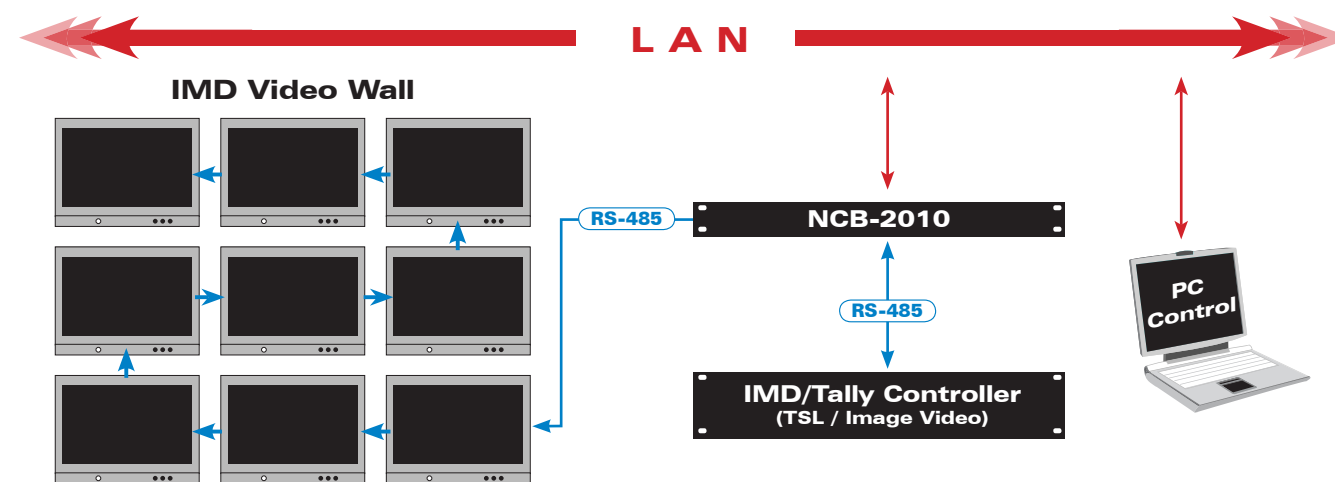

| | | |
|---|---------------------------------------|--|
| 1 | CAMERA 1 | CENTER DISPLAY Marshall's IMD monitors easily integrate with existing Tally systems and controllers. Supports Image Video, NVISION, TSL, and MEI (Marshall) protocols. <i>Future protocol support to be available via software upgrades.</i> |
| 2 | Three Colors Two Colors One Color | SOFT TALLY On-screen tri-color tallies (Red / Green / Amber) offer better flexibility and visibility with many different applications, specifically in multi-display and mobile applications. Each on-screen tally can be individually controlled either through RS-422 / 485 port or DB-15 connector (contact closure). |
| 3 | Amber Red Green | HARD TALLY Tally LEDs are provided as general purpose indicators. Each LED can be individually controlled either through RS-422 / 485 port or DB-15 connector (contact closure). |
| 4 | 01:10:30:14 | TIME CODE Video Time Code is decoded from SDI / HD-SDI auxiliary data stream and integrated on-screen for quick and easy reference. |
| 5 | Audio Present No Audio Present | AUDIO PRESENCE "Audio Present" indicates that embedded audio is detected from HD-SDI auxiliary data stream. "No Audio Present" indicates that embedded audio is not detected from HD-SDI auxiliary data stream. |
| 6 | RS-422 / 485 IN / OUT | RS-422 / 485 CONTROL RS-422 / 485 connection with loop-through for control communication, IMD functionality, and field-upgradeable firmware capability. |
| 7 | ROTOMENU | ROTOMENU™ Offers fast, direct, and easy menu navigation with just a single digital rotary switch. |

Price: \$3599.00

This 1RU network control box passes through Under-Monitor Display (UMD) protocols to be displayed on Marshall Electronics IMD-capable monitors. The NCB-2010 offers complete control of each monitor's menu functions and controls such as contrast, color, curtain color, ratio, etc. The monitors can also be controlled individually, by group, or on a global scale. The NCB-2010 connects directly to any TCP/IP 10/100 Ethernet connection. No special application is required since operability interfaces directly through any regular web browser.

- Ethernet: RJ-45 (supports 10/100)
- RS-485 input connection for 3rd party IMD/Tally controller
- Four RS-485 output ports to connect to Marshall Monitors
- Each RS-485 port can support up to 128 LCD panels
- Send and retrieve all internal monitor functions
- Supported Protocol: Image Video, TSL, Marshall
- Web browser interface

The NCB-2010 has an easy-to-navigate user interface. Interfaces through any regular web browser which allows direct access to OSD and Display functionality and control.

| SPECIFICATIONS: | |
|---------------------------------|---|
| Max LCD panel control (per NCB) | 512 |
| Max LCD panel per port | 128 |
| Ports | RJ-45 (10/100 compatible) x 1, RS-485 control port x 1 (IN), RS-485 x 4 (OUT) |
| Protocols | Image Video, TSL, Marshall |
| Max cable run | 2000' per port |
| Dimensions | 18.96"W x 1.72"H x 8.37"D (481.584mm x 43.688 mm x 212.598mm) |
| Weight | 5.5 lbs. |
| Power Consumption | Approx. 50W |

Dual Link / Waveform (DLW)

DLW Series monitors are the latest addition to the expanding line of IMD (In-Monitor Display) Monitors. The 17" V-R171X-DLW, 24" V-R241-DLW, and the 26" V-R261-DLW IMD monitors include Dual Link with Waveform & Vectorscope. These models incorporate a 10-bit "no compromise" video path along with 3G capability. In Quad-View mode, the monitors break the screen into four quadrants and display Audio Bars, a Waveform Monitor, Vectorscope, and live video simultaneously. All models have two inputs supporting 3G-SDI and Dual Link. A DVI input supports all HDMI modes and DVI to 170MHz.

Additional features include IMD protocol support for TSL, NVISION, Image Video, and MEI (Marshall Electronics) tally control systems, remote firmware update via RS-485, tri-color hard and soft tally, and Safety Marker configurations. Other display features include full CEA-608-B and CEA-708-B Closed Captioning.

17" Full Resolution Dual Link / Waveform Monitor

| | |
|---------------------------------|--------------------------|
| Display (Viewing Area) | 17" |
| Resolution (Pixels) | 1920 x 1200 |
| Brightness (cd/m ²) | 400 |
| Contrast Ratio | 600:1 |
| Available Input Types | 3G-SDI x 2, DVI x 1 |
| Dimensions | 18.9"W x 10.45"H x 1.4"D |

Price: \$3999.00

24" Full Resolution Dual Link / Waveform Monitor

| | |
|---------------------------------|--------------------------|
| Display (Viewing Area) | 24" |
| Resolution (Pixels) | 1920 x 1200 |
| Brightness (cd/m ²) | 400 |
| Contrast Ratio | 1000:1 |
| Available Input Types | 3G-SDI x 2, DVI-I x 1 |
| Dimensions | 21.9"W x 15.5"H x 2.15"D |

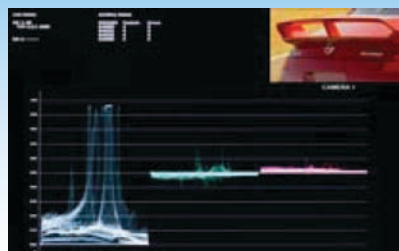

Price: \$4199.00

26" Full Resolution Dual Link / Waveform Monitor

| | |
|---------------------------------|---------------------------|
| Display (Viewing Area) | 26" |
| Resolution (Pixels) | 1920 x 1200 |
| Brightness (cd/m ²) | 400 |
| Contrast Ratio | 1000:1 |
| Available Input Types | 3G-SDI x 2, DVI x 1 |
| Dimensions | 23.3"W x 16.29"H x 2.14"D |

Price: \$4999.00

Features

WAVEFORM MONITOR

The built-in waveform monitor can be displayed in various aspect ratios, positions, and transparency options. The waveform monitor displays YUV/RGB in both Overlay and Parade modes.

REAL-TIME COLOR VECTORSCOPE

The built-in Vectorscope allows users to monitor color gamut range in real-time. It displays in various sizes, positions, and transparency options.

AUDIO LEVEL METERS

De-embeds and displays up to 16 channels of audio using sixteen 40-segment tri-color Audio Meters with user-adjustable reference levels.

Inputs:

- 2 x 3G-SDI inputs with loop-through and SD-SDI, HD-SDI, & 3G-SDI support. SDI inputs can be used in tandem to do dual link
- 1 x DVI-I input: supports digital DVI, HDMI (without audio), Analog video (RGB, YPbPr) to 162MHz

Processing:

- 10-bit image processor
- 4x3 and 16x9 aspect ratios
- High quality motion adaptive deinterlacer
- Time-code (LTC / VITC)
- 608/708 closed captioning
- Waveform monitor
- Vectorscope
- Ancillary data window
- 16 channels of audio metering (SDI inputs only)
- Standard Marshall IMD processing
- RotoMenu™ controlled OSD
- Two programmable function buttons
- System statistics monitoring in OSD
- Variety of markers

Miscellaneous:

- Hard TALLY (Red, Yellow, Green LEDs)
- Soft TALLY (in IMD)
- RS-485 interface supports Marshall, Image Video and TSL protocols
- System supports color calibration
- RS-485 based firmware update

Quad Viewer Monitors

The QUAD VIEWER Series is another addition to Marshall's line of IMD-equipped monitors. The 17", 24", and 26" Quad-Viewer Monitors feature a full resolution 1920 x 1200 LCD panel, built-in high quality HD Quad Splitter, four independent HD-SDI inputs, one DVI input, IMD (In-Monitor Display) capability, Audio Presence indicator, and Time Code. Video and DVI both offer full screen mode, while quad-split mode is scaled to fit onscreen in the highest resolution. IMD is supported via manual mode, along with Image Video, NVISION, MEI (Marshall), and TSL protocols. Other features include Closed-Caption presence display, two front panel user-configurable function buttons, RS-422/485 port with pass-through, a variety of marker and shades, and field-upgradeable firmware.

QV171X-HDSDI 17" Full Resolution Rack Mount or Desktop Quad Viewer Monitor with IMD

| | |
|---------------------------------|---------------------------|
| Display (Viewing Area) | 17" |
| Resolution (Pixels) | 1920 x 1200 |
| Brightness (cd/m ²) | 400 |
| Contrast Ratio | 600:1 |
| Available Input Types | HD-SDI x 4, DVI-I x 1 |
| Dimensions | 18.9"W x 10.45"H x 1.40"D |

Price: \$3999.00

- Quad Viewer allows viewing of 4 different inputs at once with 3 different layouts to choose from
- No need for external Under Monitor Display - "all-in-one" In-Monitor Display solution without added depth
- Supports the following protocols: Image Video/NVISION/TSL/MEI
- Full Resolution 1920 x 1200 display
- On-Screen Audio Presence Indicator / Video Time Code
- RotoMenu™ feature for fast and easy menu navigation
- High resolution scaling / high quality deinterlacing
- Three-color on-screen "soft" tally indicators (Red / Green / Amber)
- Three LED color tally indicators (Red / Green / Amber)
- Available with optional desktop stand (Part #V-ST15)

QV241-HDSDI 24" Full Resolution Desktop Quad Viewer Monitor with IMD (In-Monitor Display)

| | |
|---------------------------------|--------------------------|
| Display (Viewing Area) | 24" |
| Resolution (Pixels) | 1920 x 1200 |
| Brightness (cd/m ²) | 400 |
| Contrast Ratio | 1000:1 |
| Available Input Types | HD-SDI x 4 / DVI-I x 1 |
| Dimensions | 21.9"W x 15.1"H x 2.21"D |

Price: \$4199.00

- Quad Viewer allows viewing of 4 different inputs at once with 3 different layouts to choose from
- No need for external Under Monitor Display - "all-in-one" In-Monitor Display solution without added depth
- Supports the following protocols: Image Video/NVISION/TSL/MEI
- Full Resolution 1920 x 1200 display
- On-Screen Audio Presence Indicator / Video Time Code
- RotoMenu™ feature for fast and easy menu navigation
- High resolution scaling / high quality deinterlacing
- Three-color on-screen "soft" tally indicators (Red / Green / Amber)
- Three LED color tally indicators (Red / Green / Amber)
- Available with optional desktop stand (Part #V-ST23-32)

QV261A-HDSDI 26" Full Resolution Desktop Quad Viewer Monitor with IMD (In-Monitor Display)

| | |
|---------------------------------|--------------------------|
| Display (Viewing Area) | 26" |
| Resolution (Pixels) | 1920 x 1200 |
| Brightness (cd/m ²) | 500 |
| Contrast Ratio | 800:1 |
| Available Input Types | HD-SDI x 4, DVI-I x 1 |
| Dimensions | 23.3"W x 16.0"H x 2.17"D |

Price: \$5399.00

- Quad Viewer allows viewing of 4 different inputs at once with 3 different layouts to choose from
- No need for external Under Monitor Display - "all-in-one" In-Monitor Display solution without added depth
- Supports the following protocols: Image Video/NVISION/TSL/MEI
- Full Resolution 1920 x 1200 display
- RotoMenu™ feature for fast and easy menu navigation
- High resolution scaling / high quality deinterlacing
- Three-color on-screen "soft" tally indicators (Red / Green / Amber)
- Three LED color tally indicators (Red / Green / Amber)
- On-Screen Audio Presence Indicator / Video Time Code
- Available with optional desktop stand

Quad-Viewer Configurations

Allows viewing of 4 inputs on the screen at once. Each input source is scaled and positioned in real-time so that all 4 inputs can be seen. DVI-I input can replace input #4 in this mode. There are 3 different Quad layouts besides Full Screen and Split Screen to choose from:

Marshall's **3D-241-HDSDI** is a 24-inch 1920 x 1200 LCD monitor designed for professional 3D applications. This monitor is only 2-1/4 inches (57mm) deep and uses advanced engineering to deliver natural, flicker-free 3D images by adopting a circular polarizing filter method when used with battery-free glasses. The circular polarizing system used employs a 3D Xpol® optical filter applied to the surface of the display. The 3D-241-HDSDI also has 4 HD-SDI inputs which provide the ability to monitor two 3D (right eye / left eye) HD-SDI signals. By using circular polarized glasses, the user can simultaneously view multiple 3D monitors in a production or multimedia environment. This monitor also supports IMD (In-Monitor Display) functions through RS-422/RS-485 connections (Quad-View mode).

3D-241-HDSDI / Full Resolution 24" Stereoscopic 3D LCD Monitor with HD-SDI

- 1920 x 1200 LCD panel
- High quality 3D display with circular polarizing technology
- 4 HD-SDI inputs for simultaneous monitoring two S3D (right eye / left eye) camera rigs
- 3D, 2D side-by-side, and difference map display options
- Excellent color reproduction
- The polarizing filter used provides a stable, flicker-free visual experience
- Uses (passive) polarized glasses to watch 3D content
- Supports IMD (In-Monitor Display) functionality
- RS-422 / 485 connection with loop-through for control communication / IMD functionality
- Supports the following IMD protocols: Image Video / NVISION / TSL / MEI

Price: \$6999.00

GL-C45
Circular Polarized 3D glasses
2 pairs included

Optional Accessories

V-Y241
Oppenheimer Yoke for 3D-241-HDSDI and QV241-HDSDI
Price: \$899.00

V-YTB
Table Base for Oppenheimer and Marshall 5/8" yoke mounts
Price: \$299.00

V-HM24
Sun Hood for 24" Monitors
Price: \$239.00

V-241-CASE
Rugged road case for 3D Monitor and accessories
Price: \$1499.00

GL-C45
Circular Polarized 3D glasses
Price: \$29.95 (each)

3D-241-KIT
Complete all-in-one 3D Package:
• 3D-241-HDSDI Monitor
• V-241-CASE Road Case
• V-Y241 Yoke Mount
• V-YTB Table Base
• V-HM24 Sun Hood
• GL-C45 3D Glasses
Price: \$9499.00

MULTIPLE 3D RIGS

Two 3D camera rigs can be connected to the 3D-241-HDSDI simultaneously

Multiple 3D Views

When setting up a 3D camera rig, it is important to be able to see various aspects of the stereo image to confirm proper alignment. The 3D-241-HDSDI includes several views to assist the rig operator in setup and operation during production.

Dual Channel Camera A & Camera B

Dual Channel View showing both Camera A (Left Eye / Right Eye) at the top of the frame and Camera B (Left Eye / Right Eye) at the bottom of the frame.

Dual Channel Camera A & Camera B

Dual Channel View showing Camera A Stereoscopic 3D on the Left and Camera B Stereoscopic 3D on the Right.

Single Channel Camera A or Camera B

Single Camera view showing Left Eye on the Left and Right Eye on the Right of Single Channel Camera A or Camera B.

Single Channel Camera A or Camera B

Single Channel View of Left Eye and Right on the bottom of the frame with Left / Right Stereoscopic 3D image at the top.

Single Channel Camera A or Camera B

Single Channel View of Left Eye and Right on the bottom of the frame with Left / Right Blended image at the top.

Single Channel Camera A or Camera B

Single Channel View of Left Eye and Right on the bottom of the frame with Embossed Alpha channel image at the top.

Camera A or Camera B

Full Frame Stereoscopic 3D or Full Frame Blended view.

(Sometimes called "Alpha Channel" view)

Full Frame Embossed or Luminance Difference View showing the difference between Left Eye and Right Eye.

Vertical Viewing Angle

3D Stereoscopic LCDs using polarized filters must be viewed at the correct position to minimize left eye / right eye crosstalk.

Dual Channel Camera A & Camera B

Unique Left Eye Blue / Right Eye Red curtain color mode allows the user to easily locate the correct viewing angle for optimum performance.

orchid Fully-Featured Broadcast LCD Rack Mount Monitors

Marshall Electronics is pleased to offer the ORCHID series of fully-featured rack mount monitor systems. The ORCHID Series has all the features that customers have asked for and more.

All units come standard with auto-sensing HD-SDI inputs, re-clocked outputs, and an open modular slot for additional future inputs.

The OR-503 and OR-702 come with an additional HD-SDI input. All ORCHID Series monitors include the following features:

- Real-Time Waveform Monitor
- Real-Time Color Vectorscope
- Sixteen 64-segment Tri-color Audio Meters
- Tri-Color Tally Indicator
- On-Screen Time Code
- 7 assignable GPI inputs
- Adjustable Color Temperature
- Optional Input Modules
- Auto-Sensing Front Panel Headphone Jack
- Auto-Sensing Rear Unbalanced Stereo Output
- Adjustable Clipping Indicator
- Precision Gamma Settings
- Adjustable Color Temperature
- Variety of Safety Markers
- HD-SDI / SDI Inputs and Outputs
- Auto White Balance Calibration: *Compatible with Konica Minolta CA-210 Color Analyzer*

The built-in waveform monitor (which includes adjustable White and Black clip level indicators) can be displayed in three different aspect ratios including Full Screen. The built-in Vectorscope displays in full color and can also be displayed in three different ratios. The Vectorscope has adjustable gain from 1x to 5x. All screens are color matched at the factory and can be auto-adjusted in the field using an optional color probe system. All models will de-embed and display up to 16 channels of audio and allow the user to monitor any two channels at once through the headphone jack or rear line output jack. The 64-segment tri-color bar graph meters have user-adjustable reference levels.

OR-434 2RU Quad 4.3" Rack Mount Monitor

| | |
|---------------------------------|--------------------------|
| Display (Viewing Area) | 4.3" x 4" |
| Resolution (Pixels) | 800 x 480 |
| Brightness (cd/m ²) | 200 |
| Contrast Ratio | 400:1 |
| Available Input Types | HD-SDI |
| Available # of Slots | 4 |
| Dimensions | 18.9"W x 3.47"H x 3.54"D |

Price: \$4999.00

The OR-434 is only 2RU and has 5 user-assignable function keys with a joystick menu system.

OR-503 3RU Triple 5" Rack Mount Monitor

| | |
|---------------------------------|-------------------------|
| Display (Viewing Area) | 5" x 3" |
| Resolution (Pixels) | 800 x 480 |
| Brightness (cd/m ²) | 300 |
| Contrast Ratio | 500:1 |
| Available Input Types | HD-SDI |
| Available # of Slots | 3 |
| Dimensions | 18.9"W x 5.2"H x 2.38"D |

Price: \$4499.00

The OR-503 model occupies 3RU of rack space and includes 6 user-assignable function keys as well as 4 user-assignable rotary encoders and utilizes a 5 button menu system.

OR-701A High-End 7" Dual Input Audio and Video Monitor with Stereo Speakers

| | |
|---------------------------------|-------------------------|
| Display (Viewing Area) | 7" |
| Resolution (Pixels) | 800 x 480 |
| Brightness (cd/m ²) | 350 |
| Contrast Ratio | 400:1 |
| Available Input Types | SDI x 2 (auto sensing) |
| Available # of Slots | 1 |
| Dimensions | 18.9"W x 5.2"H x 2.38"D |

Price: \$2999.00

The OR-701A takes the same multi-function Waveform and Vectorscope features found in Marshall's OR-702 and adds full range audio speakers and a new vertical audio bar layout for real-time audio monitoring.

OR-702 3RU Dual 7" Rack Mount Monitor

| | |
|---------------------------------|-------------------------|
| Display (Viewing Area) | 7" x 2" |
| Resolution (Pixels) | 800 x 480 |
| Brightness (cd/m ²) | 350 |
| Contrast Ratio | 400:1 |
| Available Input Types | HD-SDI |
| Available # of Slots | 2 |
| Dimensions | 18.9"W x 5.2"H x 2.38"D |

Price: \$3799.00

The OR-702 model is 3RU and has 11 user-assignable function keys, a 5 button menu system, and four user-assignable rotary encoders.

OR-841-HDSI 8.4" Rack Mountable / Camera-Top / Portable Field Monitor

| | |
|---------------------------------|--------------------------|
| Display (Viewing Area) | 8.4" |
| Resolution (Pixels) | 1024 x 768 |
| Brightness (cd/m ²) | 400 |
| Contrast Ratio | 400:1 |
| Available Input Types | HD-SDI |
| Dimensions | 8.58"W x 6.89"H x 2.65"D |

Price: \$3999.00

The OR-841-HDSI model is 4RU and has a built-in speaker, 9 user-assignable function keys and rotary menu system. Also includes protective screen and adjustable / detachable stand with top handle.

OR-901-3GSDI 9" Rack Mountable / Camera-Top / Portable LCD Field Monitor with 3D SBSH Anaglyph monitoring

| | |
|---------------------------------|--------------------------|
| Display (Viewing Area) | 9" |
| Resolution (Pixels) | 960 x 540 |
| Brightness (cd/m ²) | 350 |
| Contrast Ratio | 1000:1 |
| Available Input Types | 3G-SDI x 2 |
| Dimensions | 8.58"W x 6.89"H x 2.65"D |

The OR-901-3GSDI is 4RU and has 9 user-assignable function keys as well as a rotary menu system.

Price: \$3399.00

OR-901-XDI 9" Rack Mountable / Camera-Top / Portable LCD Field Monitor with Input-to-Output Cross Conversion

| | |
|---------------------------------|------------------------------------|
| Display (Viewing Area) | 9" |
| Resolution (Pixels) | 960 x 540 |
| Brightness (cd/m ²) | 350 |
| Contrast Ratio | 1000:1 |
| Available Input Types | Composite, Component, HDMI, 3G-SDI |
| Dimensions | 8.58"W x 6.89"H x 2.65"D |

The fully-featured OR-901-XDI camera-top LCD monitor comes equipped with Composite, Component, HDMI, and dual 3G-SDI inputs.

Price: \$3699.00

ORCHID Features

WAVEFORM MONITOR

The built-in waveform monitor (which includes adjustable White and Black clip level indicators) can be displayed in various aspect ratios, positions, and transparency options. The Waveform Monitor not only monitors luminance, but can also warn the user for out-of-range conditions such as overexposure or "blacker-than-black" errors with fully user-adjustable warning limits.

REAL-TIME COLOR VECTORSCOPE

The built-in Vectorscope allows users to monitor color gamut range in real-time. It displays in full color and can also be displayed in various sizes, positions, and transparency options. The Vectorscope has adjustable gain from 1x to 5x.

CLIP GUIDE

The Clip Guide function operates with both the Waveform display and Monochrome/Color picture display. Both the upper and lower Clip Guide levels are user-adjustable in order to accurately display over-and-under exposures during different shooting conditions. For example, the upper Clip Guide limit may be set to 85 IRE and the lower limit to 10 IRE. With these settings, any exposures over the set limit of 85 IRE will display red on both the Waveform and picture (if selected). The same will be true for blacks under 10 IRE.

PRECISION GAMMA

It is important that LCD monitors match the color and gamma characteristics of a CRT monitor. To emulate CRT gamma, the non-linear curves are corrected by software algorithms. This process is complicated because the three non-linear colors (RGB) should be corrected simultaneously. The ORCHID gamma correction overcomes this problem and ensures correct matching between panels and channels.

AUDIO LEVEL METERS

De-embeds and displays up to 16 channels of audio using sixteen 64-segment tri-color Audio Meters with user-adjustable reference levels. The Audio Level Meters provide numerical indicators and headroom levels, as well as peak hold function. Audio Channel Loss Warning prevents errors during monitoring.

FRONT AND REAR PANEL AUDIO OUTPUT

Monitor any two channels at once through the front audio output jack or rear line output jack.

ONE BUTTON COLOR CALIBRATION

The ORCHID operating system includes an Automatic White Balance function that allows a "One Button" calibration procedure when used with a Konica Minolta CA-210 color analyzer. All ORCHID Series LCD panels are calibrated at the factory to ensure color conformity between screens.

WHITE BALANCE

White balance adjustment is essential in order to render colors correctly. To display colors correctly, gray scale should maintain identical color temperature. The white balance for ORCHID monitors defaults to D65 (6500K) so the user does not need to adjust white balance. LCD monitors have color-matching issues because white balance can be affected by a change in luminance level. Our unique color management system solves this problem.

Super Transflective Outdoor High Definition / Standard Definition Monitors

Marshall Electronics offers a full line of Super Transflective Outdoor Monitors designed specifically for outdoor applications with high ambient light. This technology minimizes surface reflection of both outdoor and indoor light, while featuring a much wider color reproduction range than typical transflective/reflective LCDs or even those with increased backlight performance. Marshall's super-transmissive LCDs provide improved visibility by producing high-contrast images and a wider viewing angle.

RACKS

V-R653SB-IMD

Triple 6.5" Super Transflective Outdoor High Definition LCD Rack with HD-SDI and In-Monitor Display (IMD) functionality. Advanced features include On-Screen Video Time Code, Audio Presence Indicator, Three-Color "Soft" Tally Indicators, and more. Screen resolution is 1024 x 768. Price: \$5999.00

V-R82SB-AFHD

Dual 8.4" Super Transflective Outdoor High Definition LCD Rack with Composite, S-Video, Component, HD-SDI, VGA, and DVI inputs. Advanced features include Aspect Ratio, Screen Markers, Safe Area, Blue Only, Monochrome mode, Color Temperature settings, User Presets, and more. Screen resolution is 800 x 600. Price: \$4999.00

MONITORS

V-LCD651STX-HDMIPT

6.5" Super Transflective Outdoor High Resolution LCD Monitor with Composite, Component, and HDMI Inputs. Ideal as a field monitor with direct access to advanced features such as False Color and Peaking Filters, Aspect Ratio, Center Marker, Safe Area, and more. Screen resolution is 800 x 480. Price: \$1999.00*

V-LCD651STX-3GSDI

6.5" Super Transflective Outdoor High Resolution LCD Monitor with Composite, Component, and 3G-SDI Inputs. Ideal as a field monitor with direct access to advanced features such as False Color and Peaking Filters, Aspect Ratio, Center Marker, Safe Area, and more. Screen resolution is 800 x 480. Price: \$2199.00*

V-LCD70XHB-HDMIPT

7" High Brightness Outdoor Monitor with Composite, Component, and HDMI loop-through. Advanced features include DSLR Ratio Adjustment, HDMI Auto Color Space and Ratio Detect, False Color, Peaking Filter, and more. Screen resolution is 800 x 480. Price: \$1199.00*

V-LCD70XHB-3GSDI

7" High Brightness Outdoor Monitor with Composite, Component, and 3G-SDI loop-through. Advanced features include False Color, Peaking Filter, Signal Integrity Meter, and more. Screen resolution is 800 x 480. Price: \$1399.00*

V-LCD84SB-AFHD

8.4" Super Transflective Outdoor High Definition LCD Monitor with Composite, S-Video, Component, HD-SDI, VGA, and DVI inputs. Advanced features include Aspect Ratio, Screen Markers, Safe Area, Blue Only, Monochrome mode, Color Temperature settings, User Presets and more. Screen resolution is 800 x 600. Price: \$1999.00

V-LCD15SB-AFHD-DT

15" Super Transflective Outdoor High Definition LCD Monitor with Composite, S-Video, Component, HD-SDI, VGA, and DVI inputs. Advanced features include Aspect Ratio, Screen Markers, Safe Area, Blue Only, Monochrome mode, Color Temperature settings, User Presets, and more. Includes desktop stand. Screen resolution is 1024 x 768. Price: \$2999.00

* Priced with small battery

LYNX™ Series Monitors

Ranging in various screen sizes, Marshall Lynx Monitors offer an economic price point and high performance features for any application requiring a high quality, professional-grade LCD monitor. User-friendly OSD, low profile design, and multiple input and output options make the Lynx Series Monitors an ideal fit for commercial and industrial use. Dynamic noise reduction removes unwanted artifacts in video material, and 2D & 3D comb filter technology minimizes ghosting in motion video. Ideal for high traffic public areas, Marshall Lynx Universal monitors offer high resolution capability, as well as impressive contrast ratios and brightness levels so you'll experience crystal-clear images every time.

Marshall Lynx Series Monitors are designed, engineered and manufactured for quality, reliability and affordability.

M-Lynx-10

Ideal for mobile applications and tight spaces, Marshall's 10" Lynx LCD monitor offers 800 x 600 pixel resolution with digital image processing, a digital comb filter and clock-frequency auto correction for a crisp, clear picture. With a slim, portable design, the M-Lynx-10 is an excellent standard definition monitor for audio/visual, security, and industrial applications. Price: \$379.00

M-Lynx-10W

Marshall's 10" widescreen Lynx LCD monitor offers 1024 x 600 pixel resolution with great flexibility. The M-Lynx-10W provides a sleek, thin, and lightweight black gloss design. The front panel's touch buttons allow simple menu navigation and control. Other features include an adjustable stand, multiple A/V inputs, thin card remote, and built-in rear panel speakers. Price: \$469.00

M-Lynx-15

The M-Lynx-15 delivers a stunning 1024 x 768 resolution picture in a 15" screen size. Using advanced video technologies such as 3D dynamic digital compensation, 3D comb filter, and bandwidth auto compensation, this sturdy workhorse is well suited for a variety of audio/visual, security and industrial applications. Additional features include auto-clock frequency phase correction, built-in speakers and a user-friendly OSD that makes set-up and operation quick and easy. Price: \$499.00

M-Lynx-15SDI

The M-Lynx-15SDI delivers a stunning 1024 x 768 resolution picture in a 15" screen size. Using advanced video technologies such as 3D dynamic digital compensation, 3D comb filter, and bandwidth auto compensation, this sturdy workhorse is well suited for a variety of audio/visual, security and industrial applications requiring an SDI interface. Additional features include auto-clock frequency phase correction, built-in speakers and a user-friendly OSD that makes set-up and operation quick and easy. Price: \$1499.00

M-Lynx-17

With 1280 x 1024 resolution, the M-Lynx-17 universal monitor is an excellent choice for audio/visual, security and industrial applications. Incorporating advanced video technologies such as 3D dynamic digital compensation, 3D comb filter, and bandwidth auto compensation, this 17" LCD offers clear and vibrant images in a thin, lightweight package. Additional features include auto-clock frequency phase correction, built-in speakers and a user-friendly OSD that makes set-up and operation quick and easy. Price: \$579.00

M-Lynx-17SDI

With 1280 x 1024 resolution, the M-Lynx-17SDI universal monitor is an excellent choice for audio/visual, security and industrial applications requiring an SDI interface. Incorporating advanced video technologies such as 3D dynamic digital compensation, 3D comb filter, and bandwidth auto compensation, this 17" LCD offers clear and vibrant images in a thin, lightweight package. Additional features include autclock frequency phase correction, built-in speakers and a user-friendly OSD that makes set-up and operation quick and easy. Price: \$1569.00

M-Lynx-19

The M-Lynx-19 offers a stunning 1280 x 1024 resolution picture, making it the perfect choice for audio/visual, security and industrial applications. This universal monitor delivers a crystal clear high definition picture and includes advanced video technologies such as 3D dynamic digital compensation, RGB digital phase lock, and 3D comb filter. Additional features include auto-clock frequency phase correction, built-in speakers and a user-friendly OSD. Price: \$679.00

M-Lynx-19SDI

The M-Lynx-19SDI offers a stunning 1280 x 1024 resolution picture, making it the perfect choice for audio/visual, security and industrial applications requiring an SDI interface. This universal monitor delivers a crystal clear high definition picture and includes advanced video technologies such as 3D dynamic digital compensation, RGB digital phase lock, and 3D comb filter. Additional features include auto-clock frequency phase correction, built-in speakers and a user-friendly OSD. Price: \$1699.00

MMV-XXI - Multi-Viewer System

The Montage MMV-XXI modular video multi-viewer system offers high-density delivery of 3G-SDI, HDMI, and Composite video. The 1U platform unit supports up to 6 modules. One unit can support up to 21 video input channels. The output module provides one HDMI output and one VGA output along with analog audio. The MMV-XXI provides a Xio-BUS and uses a standard SNMP protocol which can be managed by a centralized monitoring and management system. Dual redundant power supplies are standard.

Multi-viewer Display

Multi-viewer GUI

Optional Input Modules

MMV-SDHD - HD-SDI x 4 input module

MMV-SDHD is an input module for the MMV modular multi-viewer system. The MMV-SDHD provides 4 channels of HD-SDI (auto detect) video input and 4 channels of analog audio input. The MMV-SDHD also provides tally interface, audio absence/silence/out-of-range detection, video freezing detection, EDH detection, real-time video analysis, waveform display, and dynamic UMD function. The MMV-XXI series multi image processor is ideal for displaying HDTV and other high resolution serial digital video.

MMV-CVSD - SDI/Composite x 4 input module

MMV-CVSD is a input module for MMV-XXI modular multi-viewer system. The MVS-CVSD provides 4 channels of SDI/Composite (auto detect) video input and 4 channels of analog audio input. The MVS-CVSD also provides tally interface, audio absence/silence/out-of-range detection, video freezing detection, EDH detection, real-time video analysis, waveform display, and dynamic UMD function.

MMV-HDMI - HDMI x 4 input module

MMV-HDMI is an HDMI input module for the MMV modular multi-viewer system. The MMV-HDMI provides 4 channels of HDMI inputs with embedded audio. It supports the input resolution of 720p, 1080i, and 1080p. The MMV-HDMI also provides audio absence/silence/out-of-range detection, video freezing detection, EDH detection, real-time video analysis, waveform display, and UMD function.

Optional Output Modules

MMV-HDOM - HDMI / VGA output module

MMV-HDOM is an HDMI output module for the MMV modular multi-viewer system. The MMV-HDOM provides one HDMI and one VGA output. The MMV-HDOM also provides an HDMI input channel which can be used for connecting a computer for monitoring. The output resolution is up to 1920x1080. The VGA port has an optional mini-insert module which gives the customer a VGA output and an audio output. Operator can use any web browser to remotely control the unit through a 1000/100M Ethernet port.

AR-VM1 3G-SDI Signal Supported Professional Audio Monitor

- Audio de-embedded from selected SDI input up to 16 channels
- 5.1ch to L/R downmix monitoring to support ISO/IEC 13818-7 and ARIB STD B-21
- High resolution LCD for audio level, VU meter, status and input video display
- 3G-SDI input and output capability
- GPI for remote control
- Smart and compact 1RU size
- DC power operation: 10 to 18V

Price: \$5999.00

Screen display images:

Setting #1: L/R (Audio) Level Bar

Setting #2: 1-8ch Level Bar

Setting #3: L/R VU Meter

Setting #4: L/R Phase, L/R (Audio) Level Bar

Setting #5: L/R Peak Meter

Setting #6: L/R Spectrum Analyzer

Setting #7: L/R (Audio), L/R Display Level Bar

Setting #8: L/R (Audio) Peak Display

ARDM-D552
Dolby® E / Dolby® Digital Decoder Module
* Required for multi-channel decoding
Price: \$1799.00

ARVM-1770*
Loudness Board
Price: \$1899.00

ARVM-1770 Features*

Loudness

- Display Loudness level in short term/long term in stereo and 5.1ch.
- Stereo / Loudness level is calculated with the L/R channel you select.
- 5.1ch / Calculate each channel of 5.1ch, and also total loudness level in 5.1ch.

Loudness History

- Measurement period: 0.4sec
- Wave in red: Max value
- Wave in yellow: Average value
- Wave in blue: Minimum value

Loudness VU meter

Measurement period: 0.4sec(Momentary)/1 to 10sec(Short term)
VU meter: Loudness level can be monitored in VU meter. The operator is used to monitoring in this way. As for the momentary loudness, as shown in loudness history, the loudness level varies very fast in wide range. So monitoring just in LKFS number is difficult to understand visually. In the case of VU meter, the movement of loudness level is easier to understand visually.

Loudness 5.1 ch with Picture

Picture and 5.1ch Loudness in short term/long term.

True meter with loudness

True meter and loudness 5.1ch short term/long term.

Loudness 4 stereo mode

4 Stereo mode: The configuration of L/R pair is selectable.

Marshall Rack Mount Digital Audio Monitors with Dolby® Digital/Dolby® E Capability

Marshall Electronics offers the AR-DM Series Rack Mount Digital Audio Monitors – high quality, ultra-nearfield audio monitoring systems for space critical environments with interchangeable input / output modules and field-upgradeable firmware capability.

Featuring four models (two 1RU and two 2RU units), the AR-DM Series Digital Rack Mount Audio Monitors are ideal for TV facilities, studios, post production, VTR bays, mobile production vehicles, satellite links, and wherever multichannel audio monitoring is required. All models support 16 audio channels with four slots available for interchangeable input / output modules. The AR-DM series provides pristine audio quality and unrivaled flexibility with 100% digital processing, Class D (digital) amplification, selectable stereo downmix modes, Dolby® Digital / Dolby® E decoding capability (with optional Dolby® E module), a headphone jack with Level control, and an RS-485 port for on-site firmware upgrades.

The AR-DM1 provides tri-color LEDs for monitoring signal presence and system status while the AR-DM1-B and AR-DM2-B provide 10 and 20-segment tri-color bargraphs respectively. Both VU and peak metering are supported. The flagship AR-DM2-L provides dual 4” high resolution 640xRGBx480 LCD monitors capable of displaying a wealth of information, including a high contrast, tri-color 16-bar graph display in one window while showing critical Metadata or Channel Status information in the other. Channel, Group, Mix, Dolby®, Balance selection, and saved configurations are easily accessed via the system’s large navigation buttons. For audio playback, 1RU units provide twin loudspeakers, while 2RU models provide larger, high performance transducers and subwoofer.

- Only 1RU (1.75”)
- 16 LED Indicators for channel presence (AR-DM1)
- 16 Tri-Color VU/PPM 10-Segment LED Bar Graphs (AR-DM1-B)
- User-configurable with a variety of modules
- 100% Digital Processing
- Class D Audio Amplification
- Dolby® Digital / Dolby® E Decoding (with optional ARDM-D552 module)
- Selectable Stereo Downmix Modes
- RS-485 Port enables on-site firmware upgrades
- Balance and Volume Control
- 1/4” Headphone Jack
- 4 Available Slots for Modules

MIX & MATCH Modules

- 16 Tri-Color VU/PPM 20-Segment LED Bar Graphs (AR-DM2-B)
- 2 High Resolution LCD Displays capable of displaying meters, metadata, channel status, and more (AR-DM2-L)
- User-configurable with a variety of modules
- 100% Digital Processing
- Class D Audio Amplification
- Powerful Stereo Speakers and Subwoofer
- Dolby® Digital / Dolby® E Decoding (with optional ARDM-D552 module)
- Selectable Stereo Downmix Modes
- RS-485 Port enables on-site firmware upgrades
- Balance and Volume Control
- 1/4” Headphone Jack
- 4 Available Slots for Modules

Analog

AR-AM1 High Quality 1RU Rack Mountable Analog Audio Monitor with Digital Signal Processing

Price: \$499.00

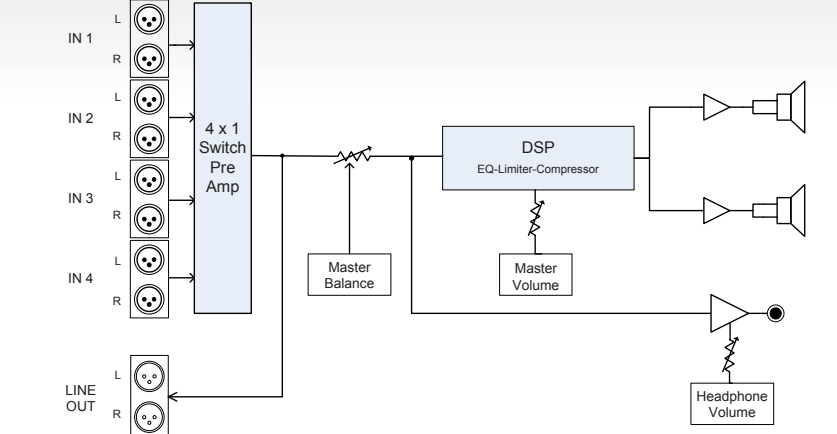

- Fits 1RU rack space
- High Fidelity Miniature Speakers
- Volume and Balance controls
- High Quality DSP Processing
- 1 Analog Stereo-Balanced XLR Input
- 1 Passive Stereo-Balanced XLR Output
- 1 Stereo Analog Unbalanced RCA Input
- 1/4” Stereo Headphone Jack on front panel
- CE approved / RoHS compliant

AR-AM4 High Quality 1RU Rack Mountable Analog 4-Channel Audio Monitor with Digital Signal Processing

Price: \$599.00

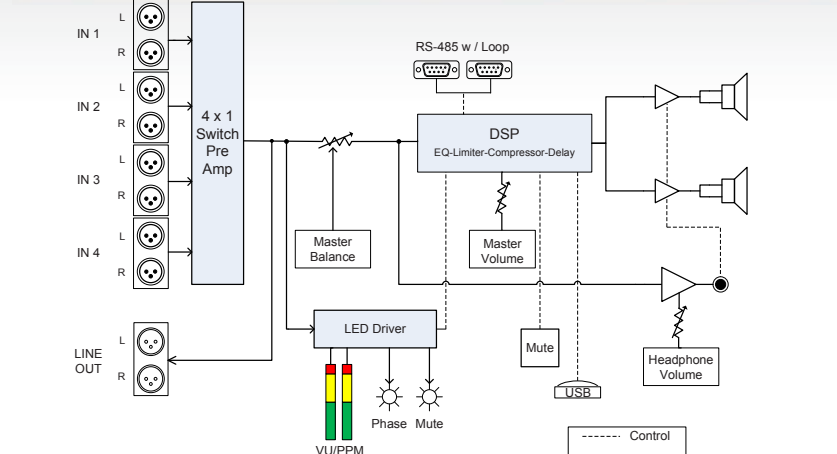

- Fits 1RU rack space
- High Fidelity Miniature Speakers
- Volume and Balance controls
- Channel Selector
- High Quality DSP Processing
- 4 Analog Stereo-Balanced XLR Inputs
- 1 Passive Stereo-Balanced XLR Output
- 1/4” Stereo Headphone Jack on front panel
- CE approved / RoHS compliant

AR-AM4-BG High Quality 1RU Rack Mountable Analog 4-Channel Audio Monitor with DSP and Peak Meters

Price: \$699.00

- Fits 1RU rack space
- High Fidelity Miniature Speakers
- Bi-Color Phase Indicator
- Volume and Balance controls
- Channel Selector
- Quality DSP Processing
- Rear panel RS-485 for external control
- 4 Analog Stereo-Balanced XLR Inputs
- 1 Passive Stereo-Balanced XLR Output
- 1/4” Stereo Headphone Jack on front panel
- Dual 10-Channel Bar Graph Peak Meters
- Headphones automatically mute internal speakers
- Front Panel Mute Button
- Headphones automatically mute internal speakers
- CE approved / RoHS compliant

Marshall VS-102-HDSDI H.264-based Video Server (Codec System)

The Marshall VS-102-HDSDI is a High Definition Video Server that allows real-time transmission of an HD-SDI, HDMI, or NTSC/PAL composite video signals along with bi-directional AAC encoded high definition stereo audio over standard IP networks and the internet. The Marshall VS-102-HDSDI incorporates advanced H.264 and MJPEG compression technology. This allows 50% more compression capacity over an existing IP Network, while providing optimal video transmission quality even in networks with limited bandwidth.

The VS-102-HDSDI may be configured to operate as a Point-to-Point talent monitoring system. For example, the unit can operate as an encoder to compress and transmit A/V data over a LAN to another VS-102-HDSDI located in a Green Room or other location. The other unit can act as a decoder which receives the compressed data through the LAN and restores the data to its' original high definition state. Additionally, other computers or VS-102-HDSDI decoders connected to the same network can monitor both the audio and video in multiple locations throughout a venue such as dressing rooms, stage manager, or box office at the same time. When properly configured, the VS-102-HDSDI may be simultaneously monitored through the internet.

Price: \$1999.00

- High quality compression algorithm (H.264/MJPEG)
- AAC Advanced Audio Codec
- Encoder/Decoder selectable
- Full-duplex audio
- Supports video resolutions up to 1920 x 1080i at 60fps
- Protocols : TCP/IP, Multicast, HTTP, SMTP, SNMP, FTP, DHCP, DNS, Dynamic DNS, RTP, RTSP
- Real-time monitoring through Microsoft® Internet Explorer™
- Composite NTSC/PAL support
- HD-SDI support
- HDMI support
- Dynamic IP support with Dynamic DNS
- Power over Ethernet (PoE) support
- Local Data storage thru USB 2.0
- Automatic system recovery
- Support for PTZ and Controller

| SECTION | | SPECIFICATION |
|---------|-------------------|---|
| System | System Mode | Encoder, Decoder |
| Network | Network Interface | Ethernet 10/100Base-T (RJ-45) |
| | Network Protocol | TCP/IP, UDP, Multicast, DHCP, SMTP, HTTP, SNMP, RTP, RTSP |

| | Data Rate | 32Kbps ~ 8Mbps |
| | Resolution | 1920x1080/60i ~ 352x240/30fps, 18 resolution step |
| | Frame Rate Range | 1 ~ 30fps |
| | Frame Rate Range | NTSC : 0.2 ~ 30fps / PAL : 0.2 ~ 25fps |
| | Input 1 | 1 x HDMI type-A, HDMI RX |
| | Input 2 | 1 x BNC, SD/HD-SDI |
| | Input 3 | 1 x BNC, Composite NTSC/PAL |
| | Output 1 | 1 x HDMI type-A, HDMI TX |
| | Output 2 | 1 x BNC, HD-SDI |
| Audio | Output 3 | 1 x BNC, Composite NTSC/PAL |
| | Motion Detection | Sensitivity Adjustment |
| | Standards | AAC Advanced Audio Codec |
| | Sample Rate | Up to 128KHz |
| | Input | 1 x Line-In (3.5mm Mini-Stereo, Stereo / Mono) |
| | Output | 1 x Line-Out (3.5mm Mini-Stereo, Stereo / Mono) |

2.0 Megapixel IP Cameras with Built-In 10x Zoom Lens and HDSDI Video Output

Marshall Electronics offers two new H.264 cameras that feature a built-in encoder for fast and easy integration into a local area network or via the Internet. Both cameras are completely compatible with Marshall's VS-102 H.264 Encoder / Decoder and provide Full HD 1920x1080 resolution.

VS-540-HDSDI

Price: \$2799.00

VS-540-HDSDI Rear View

- 2.0 Megapixel 1/3" CMOS Image Sensor
- Up to 30 fps at 1920 x 1080
- Dual Streaming (H.264/H.264, H.264/MJPEG)
- 120x Zoom (10x Optical Zoom, 12x Digital Zoom)
- True Day & Night (ICR) capability
- Simultaneous HD-SDI Video Output
- SD™ Card Recording
- BLC (Back Light Compensation)

- RS-485 Communication
- On-Board Motion Detection
- Two-Way Audio Communication (G.711/AAC)
- 1 Motion Sensor Input & Alarm Output
- Various Protocols : TCP/IP, Multicast, UDP, HTTP, SMTP, FTP, DHCP, DNS, Dynamic DNS, RTP, RTSP, SNMP
- SDK & API Available

* The SD mark is a trademark of SD-3C LLC

VS-570-HDSDI

Price: \$3999.00

VS-570-HDSDI Rear View

- 2.0 Megapixel 1/3" CMOS Image Sensor
- Up to 30 fps at 1920 x 1080
- Dual Streaming (H.264/H.264, H.264/MJPEG)
- x120 Zoom (x10 Optical Zoom, x12 Digital Zoom)
- True Day & Night (ICR)
- Simultaneous HD-SDI Video Output
- Vandal-Proof, IP67-rated Protection
- Fast & Smooth Motion with 360° Pan Rotation
- Max 128 Presets, 8 Swings, 4 Patterns, 8 Groups
- RS-485 Communication, Pelco D or Pelco P Protocol
- BLC (Back Light Compensation)
- On-Board Motion Detection
- Two-Way Audio Communication (G.711/AAC)
- 2 Motion Sensor Inputs & 2 Alarm Outputs
- Various Protocols : TCP/IP, Multicast, UDP, HTTP, SMTP, FTP, DHCP, DNS, Dynamic DNS, RTP, RTSP, SNMP
- SDK & API Available

Price: \$1949.00

Price: \$1999.00

V-C210B-HSDSI Block Camera

The V-C210B-HSDSI Block camera is a full HD production Block Camera module that can be mounted in the tightest spaces. Flexible HDMI and HD-SDI outputs provide a choice of video formats. The unit's small enclosure and wireless remote, combined with instant auto-focus and fast accurate zoom allow for extremely flexible POV camera placement. The V-C210B-HSDSI requires only a 12VDC supply and consumes less than 3.6 watts of power. Low light sensitivity along with wide dynamic range increases the possible uses for this versatile camera module.

V-C210-HSDSI Box Camera

The V-C210-HSDSI camera is designed for superior quality high resolution video up to 1920 x 1080i. The HD-SDI interface allows transmission of high definition video up to 200 meters over standard coaxial cable. An F1.8, f=4.5 to 45 mm 10x optical zoom lens along with 12x digital zoom combine for up to 120x magnification. All this is packaged in a small, sleek aluminum enclosure. A 1/4"-20 mounting receptacle may be attached to either the top or the bottom of the enclosure. This along with horizontal and vertical flip allows easy mounting for almost any POV location.

- Full HD 1920x1080, 1280x720, 30p/60i video
- HD-SDI video output
- HDMI, Composite, S-Video output (V-C210B-HSDSI)
- RS-232 I/O
- IR Control
- 10X Optical Zoom F1.8 Lens
- Built-in Electronic Image Stabilization
- Sleek aluminum enclosure (V-C210-HSDSI)
- 1/4"-20 mounting receptacle (V-C210-HSDSI)

Portable ATSC Field Monitors

The digital transition is here and Marshall has you covered. Marshall is pleased to offer three portable LCD field monitors with built-in digital ATSC tuners. These 16:9 monitors are available in 7", 10.2", and 11" sizes and comply with the Federal Communications Commission (FCC) mandate requiring the conversion of analog broadcast signals to digital. No digital-to-analog converter box required. Not only do these monitors provide portable television, but they are perfect for mobile ENG / OB Vans, surveillance, and security. These units can be integrated into fixed solutions and fed with a CATV or CCTV signal. Each unit also supports QAM (or ClearQAM) tuning, which allows viewing of non-encrypted digital channels.

MXL® USB Microphones & Adapters

MXL® Microphones (the professional audio division of Marshall Electronics) offers a complete series of USB microphones and adapters. These USB mics and adapters were designed with the broadcast industry in mind. Record high-quality vocals or narration directly to your laptop or desktop without an audio interface, mixer, or preamp! No special drivers required!

The MXL® USB microphones and adapters make a great solution for field recording, podcasts, interviews, music, and meetings. A number of TV stations are currently using our USB microphones to connect to a laptop and record straight onto the timeline of their non-linear editing software. This eliminates the costly, time-consuming process of disconnecting and reconnecting a camera to a computer in order to record vocal tracks on-location. MXL® USB microphones streamline the news editing process without additional gear, while providing studio-quality audio. MXL® audio products provide a viable, cost-effective solution for the broadcast industry, while improving efficiency and workflow.

USB Microphones

Studio 1

Pro-Quality USB Condenser Mic with Headphone Jack

- Frequency Response: 40Hz to 20kHz
- Sampling Rate: 44.1kHz and 48kHz
- Bus Powered
- USB 1.1 and 2.0 Compatible
- 16-bit Delta Sigma A/D Converter with THD+N - 0.01%
- No Special Drivers Required

Price: \$129.95

USB.006

Gold Diaphragm USB Condenser Mic

- 22mm Capsule
- Gold Sputtered Diaphragm
- Frequency Response - 20Hz to 20kHz
- Sampling Rate - 44.1 and 48kHz
- Bus Powered
- USB 1.1 and 2.0 Compatible
- Three Position Analog Gain Control
- 16-bit Delta Sigma A/D Converter with THD+N - 0.01%
- No Special Drivers Required

Price: \$169.00

USB.007 Stereo

Dual Gold Diaphragm USB Condenser Mic

- Two 22mm Capsules in a 90 degree XY configuration
- Discrete Left and Right Signal Paths to Minimize Crosstalk
- Adjustable Stereo Width (after recording and during mixing)
- Gold Sputtered Diaphragms
- Frequency Response - 20Hz to 20kHz
- Sampling Rate - 44.1 and 48kHz
- Bus Powered
- USB 1.1 and 2.0 Compatible
- Three Position Analog Gain Control
- 16-bit Delta Sigma A/D Converter with THD+N - 0.01%
- No Special Drivers Required

Price: \$219.95

USB.009

Professional 24-bit/96 kHz Gold Diaphragm USB Condenser Mic

- 32mm Pressure Gradient Capsule
- 6-Micron Gold Sputtered Diaphragm
- 114dB dynamic range
- USB 1.1 and 2.0 Compatible
- Analog gain control before the A/D
- Built-in Headphone Amplifier
- Zero Latency Monitoring
- Mix control between live mic and computer playback
- USB powered
- Bit Depths available: 16 and 24
- Sample rates available: 44.1kHz, 48kHz, 96kHz

Price: \$599.95

Mac® / PC compatible

USB Adapters

Price: \$149.95

Mic Mate™ PRO

- Studio-quality USB Microphone Adapter / Preamp
- Adapts any existing condenser microphone to USB
- Supplies 48V Phantom Power
- Zero latency monitoring
- Gain and headphone controls
- 1/8-inch headphone jack
- Easy Plug and Record - no special drivers required!
- Fully balanced low noise analog front-end
- Compact travel size with heavy duty diecast metal construction

Price: \$99.95

Mic Mate™ DYNAMIC

- Studio-quality USB Dynamic Microphone Adapter / Preamp
- Adapts any existing dynamic microphone to USB
- Perfect companion for SM-57/58, RE50, and 635N/DB
- Easy Plug and Record - no special drivers required!
- Fully balanced low noise analog front-end
- Three position analog gain control
- Compact travel size with heavy duty diecast metal construction
- Modifications for Ribbon mics available

Mac® / PC compatible

USB-77 Classic-style USB microphone

- Classic design with studio-quality sound
- Zero latency direct monitoring
- Includes 1/8-inch stereo headphone jack
- High quality headphone amplifier and analog gain controls
- PC and Mac® compatible

Price: \$349.95

V177 Low Noise, Condenser Microphone

- Classic body design with modern condenser technology
- Provides crystal-clear sound quality and detail
- Excels in any recording application
- Includes 6-micron gold-sputtered diaphragm

Price: \$399.95

Boundary Microphones

Phantom-powered three-capsule boundary mics make it easy to find the right solution for every job

Price: \$199.95

Price: \$119.95

Price: \$129.95

FR-400

Has a wide pattern to capture everything on a stage and includes a bass cut/boost switch to even out the tonality.

FR-401M

Has a more directional pattern to reject nearby unwanted sounds and has a built-in 15' XLR cable.

FR-402

Connects directly to a camera for the fastest way to record tabletop interviews with great results. Includes a 15' mini-XLR to XLR cable.

FR-401M shown

Camera-Top / Field Monitors

Marshall Electronics is a leading manufacturer of LCD camera-top monitors for broadcast, multimedia, video, film, and news professionals worldwide. We offer a large assortment of outdoor field monitors and portable HD-DSLR confidence monitors for video and film recording. Marshall's on-board / jib monitors are the perfect solution for photographers and videographers using HD-DSLR cameras to capture HD video and stills. Marshall offers the widest assortment of monitors, with a wide variety of features and functionality. The majority of these monitors are designed, engineered, and assembled just a few miles from Hollywood.

V-LCD50-HDMI 5" Small 800 x 480 Camera-Top / Portable Field Monitor with HDMI

Price: \$599.00

- 800 x 480 LCD panel
- Manual Gamma Adjustment
- Adjustable Backlight
- Image Flip
- 1/4"-20 Mount
- Variety of Markers, including user-adjustable
- False Color On/Off
- Peaking Filter On/Off
- 4 user-configurable function buttons
- Scratch Resistant Protective Screen
- RGB gain and bias control
- RGB Check Field/Field Detect
- Uses 4 AA batteries

\$ BEST SELLER

V-LCD56MD 5.6" High Resolution Camera-Top Monitor with Modular Input/Output

Price: TBD

- High resolution 1280 x 800 LCD panel
- Dual HDMI Inputs
- Single MD slot for a variety of Inputs or Outputs
- Adjustable LED Backlight
- DSLR Ratio Adjustment
- HDMI Auto Color Space and Ratio detect
- Manual Gamma Adjustment
- Image Flip
- 1/4"-20 mounts on all sides
- Variety of Markers, including user-adjustable
- HDMI Loop-Through
- False Color / Peaking Filter
- Variety of User-Replaceable Battery Adapters available

V-R841DP-AFHD 8.4" High Definition Monitor with all Digital / Analog HD/SD Inputs

- High Definition 8.4-inch 2.4 TFT-MegaPixel screen with 1024 x 768 resolution
- Over 16.7 million colors
- V-Mount battery adapter included
- 100% digital processing
- High resolution scaling of all images
- CRT-style viewing radius - 170° in all directions
- Standard Multi-format inputs:
 - HD-SDI (all formats)
 - SDI (ITU-R BT601 format)
 - Composite Video PAL/NTSC
 - S-Video (Y/C)
 - Component Analog HD/SD
 - SXGA (1280x1024) display
 - DVI-I (all formats)
- Works with all SMPTE/ITU analog and serial digital production formats and frame rates
- Easy-to-see three color tally indicators
- Built-in Color Bars
- Adjustment Settings Memory
- Calibrated Color Temperature and Gamma
- Durable Metal Enclosure
- Includes 1/4"-20 mounting plate that can be attached to any edge of the enclosure (additional mounting plates available)

Price: \$2699.00

V-LCD84SB-AFHD 8.4" Outdoor High Definition Monitor with all Digital / Analog HD/SD Inputs

- High Luminance Backlight
- Low Reflective Properties
- Wider color reproduction for richer colors
- Crisper, sharper images (textual / graphical information)
- Outstanding Front-of-Screen Performance
- Wide Viewing Angle
- Extended Temperature Rating
- Standard Multi-format inputs:
 - HD-SDI (all formats)
 - SDI (ITU-R BT601 format)
 - Component Analog HD/SD
 - Composite Video NTSC/PAL
 - S-Video (Y/C)
 - DVI-I (all formats)
 - Computer Input (HD-15)
- High Definition 8.4-inch TFT-MegaPixel screen with 800 x 600 resolution
- Over 16.7 million colors
- 650 candelas per square meter (cd/m²)
- 600:1 ratio of contrast
- Pixel-to-Pixel native resolution scaling
- Blue Gun for color adjustment
- Zoom function
- Direct access for all adjustments
- Works with all SMPTE/ITU analog and serial digital production formats and frame rates

Price: \$1999.00

OR-841-HDSI 8.4" High-End Rack Mountable / Camera-Top / Portable Field Monitor

- Real-Time Waveform Monitor
- Real-Time Color Vectorscope
- Auto White Balance Calibration
- Sixteen 64-segment Tri-color Audio Meters
- Tri-Color Tally Indicator
- On-Screen Time Code
- 7 assignable GPI inputs
- Adjustable Color Temperature
- Auto-Sensing Front Panel Headphone Jack
- Auto-Sensing Rear Unbalanced Stereo Output
- Adjustable Clipping Indicator
- Precision Gamma Settings
- Adjustable Color Temperature
- Variety of Safety Markers
- HD-SDI / SDI Inputs and Output
- Supports 3 different Battery Adapters
- Factory-installed Protective Screen
- Adjustable / Detachable Stand with top handle

- False Color Mapping with two modes
- Histogram
- Auto-Sensing Rear Unbalanced Stereo Output
- Auto-Sensing Front Panel Headphone Jack

Price: \$3699.00

False Color Filter

The **False Color Filter** is used to aid in the setting of camera exposure. As the camera Iris is adjusted, elements of the image will change color based on the luminance or brightness values. This enables proper exposure to be achieved without the use of costly, complicated external test equipment.

Peaking Filter (Focus Assist)

The **Peaking Filter** is used to aid the camera operator in obtaining the sharpest possible picture. When activated, all color will be removed from the display and a black-and-white image will remain. The internal processor will display RED color on the screen where sharp edges appear. When the camera operator adjusts (or "racks") the focus control (on the camera lens), different parts of the image will have RED colored edges. This indicates that this portion of the image

is sharp or in focus. Final focus is achieved by racking the camera lens focus control back and forth until the desired portion of the image has RED colored edges. This feature is most effective when the subject is properly exposed and contains enough contrast to be processed.

DSLR Ratio Adjustment

Marshall's new DSLR RATIO ADJUSTMENT feature allows users to scale video that does not completely fill the monitor's screen when connected via HDMI in "Record" mode on certain Canon DSLRs. This new feature allows the user to scale their DSLR video output, fill the screen, and eliminate black pillar bars with a variety of options to choose from. The user has the option of choosing between NORMAL, 3:2, 16:9, and FULL SCREEN. The DSLR RATIO ADJUSTMENT feature can be programmed to one of the front panel's four-button presets for quick and easy access.

CAMERA-TOP MONITOR ACCESSORIES

Marshall Electronics' popular and award winning lineup of portable camera-top monitors just got better. Our picture performance, feature set, customer service, and experience is why the industry's leading photographers, videographers, and camera operators prefer Marshall over the competition. Marshall is constantly raising the bar and our 6.5" STX and 7" XP monitors are no exception.

V-LCD-HI Camera Horizon Indicator for 6.5" STX and 7" XP Monitors*

The V-LCD-HI is an optional adapter that allows the user to accurately position their equipment for stable and level shooting. This is especially useful for Steadicam® operators and those that require stable or level shots. By placing the V-LCD-HI sensor to the camera, tripod or other mounting surface, the Marshall LCD monitor display can be used precisely adjust the level of a tripod, camera, or Steadicam rig. The on-screen Horizontal and Vertical level meters indicate when the equipment is level, perpendicular and properly balanced to the horizon. This optional adapter allows these monitors to offer expanded features and flexibility.

* This accessory can only be used with V-LCD70XP and V-LCD651STX series with software versions 3.46 or higher.

V-LCD-TB Camera-Top Tally Box for 6.5" STX and 7" XP Monitors*

The V-LCD-TB is an optional adapter that provides both Front and Rear tally functionality to Marshall's portable field monitors. The V-LCD-TB assists in production work by providing camera status to those on-set or in the field. This lightweight tally box provides tri-color front talent LEDs with a dimmer switch to adjust the desired brightness of tally indicators. The rear camera tally provides a red glow to alert the cameraman, studio, or audience members of current shooting status.

* This accessory is only compatible with the V-LCD70XP and V-LCD651ST monitor series.

V-R84DP-VGA

- Easy-to-view 8.4-inch screen
- Direct access for all adjustments
- Durable metal enclosure
- Configurable 1/4-20 Mounting

\$999.00

Physical Specs **Inputs**

| | | | | | |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 500 BRIGHT | 500:1 CONTRAST | 2.5" DEPTH |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

V-R84DP-2C

- Optical-grade polycarbonate screen cover
- 500 cd/m² brightness
- Includes V-Mount Battery Adapter / 4-Pin XLR Power
- On-Screen Display (OSD) and "Blue Gun"

\$1399.00

Physical Specs **Inputs** **Features**

| | | | | | |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 500 BRIGHT | 500:1 CONTRAST | 2.5" DEPTH |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

V-R841DP-DVI

- Easy-to-view 8.4-inch screen
- Direct access for all adjustments
- Durable metal enclosure
- Configurable 1/4-20 Mounting

\$1399.00

Physical Specs **Inputs** **Features**

| | | | | | |
|----------------------------|----------------------------|-------------------------------|----------------------|--------------------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 1024x768 RESOLUTION | 400 BRIGHT | 400:1 CONTRAST | 2.5" DEPTH |
|----------------------------|----------------------------|-------------------------------|----------------------|--------------------------|----------------------|

V-R84DP-2SDI

- Optical-grade polycarbonate screen cover
- 400 cd/m² brightness
- Includes V-Mount Battery Adapter / 4-Pin XLR Power
- On-Screen Display (OSD) and "Blue Gun"

\$1799.00

Physical Specs **Inputs** **Features**

| | | | | | |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 500 BRIGHT | 500:1 CONTRAST | 2.5" DEPTH |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

V-R84DP-HDA

- Optical-grade polycarbonate screen cover
- Accepts all analog HD/SD formats/frame rates
- Includes V-Mount Battery Adapter / 4-Pin XL Power
- On-Screen Display (OSD) and "Blue Gun"

\$1999.00

Physical Specs **Inputs** **Features**

| | | | | | |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 500 BRIGHT | 500:1 CONTRAST | 2.5" DEPTH |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

V-R84DP-HSDI

- Large 10.4-inch 800 x 600 screens
- Adjustable Color Temperature
- 10-bit Analog-to-Digital conversion
- High resolution scaling

\$2099.00

Physical Specs **Inputs** **Features**

| | | | | | |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 500 BRIGHT | 500:1 CONTRAST | 2.5" DEPTH |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

V-R84DP-SD

- Optical-grade polycarbonate screen cover
- SDI plus all HD/SD analog signals
- Includes V-Mount Battery Adapter / 4-Pin XLR Power
- On-Screen Display (OSD) and "Blue Gun"

\$2199.00

Physical Specs **Inputs** **Features**

| | | | | | |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 500 BRIGHT | 500:1 CONTRAST | 2.5" DEPTH |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

V-R84DP-HD

- Optical-grade polycarbonate screen cover
- Accepts all HD/SD formats/frame rates
- Includes V-Mount Battery Adapter / 4-Pin XLR Power
- On-Screen Display (OSD) and "Blue Gun"

\$2499.00

Physical Specs **Inputs** **Features**

| | | | | | |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 500 BRIGHT | 500:1 CONTRAST | 2.5" DEPTH |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

V-LCD84SB-AFHD

\$1999.00

- Super Transflective Outdoor Monitor
- Designed specifically for outdoor applications and challenging viewing environments
- Over 16.7 million colors
- Pixel-to-Pixel native resolution scaling

Physical Specs

| | | | | | | |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 650 BRIGHT | 600:1 CONTRAST | 4 RU | 2.5" DEPTH |
|----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------|----------------------|

Inputs

COMPOSITE Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, HD-SDI Loop-Through, DVI, XGA

Features

TALLY

V-R841DP-AFHD

\$2699.00

- "V" Mount battery adapter included
- Optical-grade polycarbonate screen cover
- Blue Gun for color adjustment
- Built-in Color Bars

Physical Specs

| | | | | | | |
|----------------------------|----------------------------|-------------------------------|----------------------|--------------------------|----------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 1024x768 RESOLUTION | 400 BRIGHT | 400:1 CONTRAST | 4 RU | 2.5" DEPTH |
|----------------------------|----------------------------|-------------------------------|----------------------|--------------------------|----------------|----------------------|

Inputs

COMPOSITE Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, HD-SDI Loop-Through, DVI, XGA

Features

TALLY

OR-841-HDSI

\$3099.00

- Real-Time Waveform Monitor
- Real-Time Color Vectorscope
- Auto White Balance Calibration
- Sixteen 64-segment Tri-color Audio Meters

Physical Specs

| | | | | | | |
|----------------------------|----------------------------|-------------------------------|----------------------|--------------------------|----------------|----------------------|
| 8.4" SCREEN SIZE | 4:3 ASPECT RATIO | 1024x768 RESOLUTION | 400 BRIGHT | 400:1 CONTRAST | 4 RU | 1.7" DEPTH |
|----------------------------|----------------------------|-------------------------------|----------------------|--------------------------|----------------|----------------------|

Inputs

HD-SDI x 2 Loop-Through

Features

WAVEFORM, VECTORSCOPE, AUDIO LEVEL, TALLY

V-R901DP-AFHD

\$2799.00

- 16.7 million colors
- Wide viewing angles
- 6 Frame Marker Overlays with Center Mark
- Easy-to-see three color tally indicators

Physical Specs

| | | | | | |
|--------------------------|-----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 9" SCREEN SIZE | 16:9 ASPECT RATIO | 800x480 RESOLUTION | 400 BRIGHT | 600:1 CONTRAST | 2.5" DEPTH |
|--------------------------|-----------------------------|------------------------------|----------------------|--------------------------|----------------------|

Inputs

COMPOSITE Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, HD-SDI Loop-Through

Features

TALLY

OR-901-3GSDI

\$3399.00

- 9-inch 960 x 540 screen
- 3D Review
- Waveform Monitor
- 3G-SDI

Physical Specs

| | | | | | |
|--------------------------|-----------------------------|------------------------------|----------------------|---------------------------|----------------------|
| 9" SCREEN SIZE | 16:9 ASPECT RATIO | 960x540 RESOLUTION | 350 BRIGHT | 1000:1 CONTRAST | 1.8" DEPTH |
|--------------------------|-----------------------------|------------------------------|----------------------|---------------------------|----------------------|

Inputs

3G 3G-SDI x 2 Loop-Through

Features

WAVEFORM, VECTORSCOPE, AUDIO LEVEL, TALLY

OR-901-XDI

\$3699.00

- 9-inch 960 x 540 screen
- Integrated cross media converter
- 3G-SDI, Composite, Component and HDMI inputs
- Waveform Monitor

Physical Specs

| | | | | | |
|--------------------------|-----------------------------|------------------------------|----------------------|---------------------------|----------------------|
| 9" SCREEN SIZE | 16:9 ASPECT RATIO | 960x540 RESOLUTION | 350 BRIGHT | 1000:1 CONTRAST | 1.8" DEPTH |
|--------------------------|-----------------------------|------------------------------|----------------------|---------------------------|----------------------|

Inputs

3G 3G-SDI x 2 Loop-Through, COMPOSITE, COMPONENT, HDMI Loop-Through

Features

WAVEFORM, VECTORSCOPE, AUDIO LEVEL, TALLY

M-Lynx-10

\$379.00

- 10" 4:3 LCD Monitor
- 2D Comb Filter
- Dynamic Noise Reduction

Physical Specs

| | | | | | |
|---------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 10" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 250 BRIGHT | 450:1 CONTRAST | 1.7" DEPTH |
|---------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

Inputs

COMPOSITE, S-VIDEO, VGA, AUDIO INPUTS x 2

M-Lynx-10W

\$469.00

- 10" 16:9 LCD Monitor
- Thin, sleek, and lightweight design
- Includes adjustable stand, thin card remote, VGA cable, and AC adapter

Physical Specs

| | | | | | |
|---------------------------|-----------------------------|-------------------------------|----------------------|--------------------------|-----------------------|
| 10" SCREEN SIZE | 16:9 ASPECT RATIO | 1024x600 RESOLUTION | 250 BRIGHT | 300:1 CONTRAST | 0.75" DEPTH |
|---------------------------|-----------------------------|-------------------------------|----------------------|--------------------------|-----------------------|

Inputs

COMPOSITE x 2, VGA, AUDIO INPUTS

V-R104DP-2C

\$1599.00

- Large 10.4 Screen Field Monitor
- Optical-grade polycarbonate screen cover
- Rugged Enclosure with AR/Scratch Resistant screen
- Includes V-Mount Battery Adapter / 4-Pin XLR Power

Physical Specs

| | | | | | |
|-----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 10.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 600 BRIGHT | 500:1 CONTRAST | 2.5" DEPTH |
|-----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

Inputs

COMPOSITE x 2 Loop-Through

Features

TALLY

V-R1041DP-DVI

\$1599.00

- Large 10.4-inch screen
- Wide viewing angle
- Durable metal enclosure

Physical Specs

| | | | | | |
|-----------------------------|----------------------------|-------------------------------|----------------------|--------------------------|----------------------|
| 10.4" SCREEN SIZE | 4:3 ASPECT RATIO | 1024x768 RESOLUTION | 300 BRIGHT | 700:1 CONTRAST | 2.5" DEPTH |
|-----------------------------|----------------------------|-------------------------------|----------------------|--------------------------|----------------------|

Inputs

DVI, XGA

Features

TALLY

V-R104DP-2SDI

\$1999.00

- Optical-grade polycarbonate screen cover
- Includes V-Mount Battery Adapter / 4-Pin XLR Power
- On-Screen Display (OSD) and "Blue Gun"

Physical Specs

| | | | | | |
|-----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|
| 10.4" SCREEN SIZE | 4:3 ASPECT RATIO | 800x600 RESOLUTION | 600 BRIGHT | 500:1 CONTRAST | 2.5" DEPTH |
|-----------------------------|----------------------------|------------------------------|----------------------|--------------------------|----------------------|

Inputs

SDI x 2 Loop-Through

Features

TALLY

V-R104DP-HDA

- Optical-grade polycarbonate screen cover
- Includes V-Mount Battery Adapter / 4-Pin XLR Power
- On-Screen Display (OSD) and "Blue Gun"

\$2199.00

Physical Specs

| | | | | | |
|-------------|--------------|------------|--------|----------|-------|
| 10.4" | 4:3 | 800x600 | 500 | 600:1 | 2.5" |
| SCREEN SIZE | ASPECT RATIO | RESOLUTION | BRIGHT | CONTRAST | DEPTH |

Inputs

COMPOSITE Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, DVI, XGA

Features

TALLY

V-R104DP-HDSI

- Optical-grade polycarbonate screen cover
- Includes V-Mount Battery Adapter / 4-Pin XLR Power
- On-Screen Display (OSD) and "Blue Gun"

\$2299.00

Physical Specs

| | | | | | |
|-------------|--------------|------------|--------|----------|-------|
| 10.4" | 4:3 | 800x600 | 600 | 500:1 | 2.5" |
| SCREEN SIZE | ASPECT RATIO | RESOLUTION | BRIGHT | CONTRAST | DEPTH |

Inputs

HD-SDI Loop-Through

Features

TALLY

V-R104DP-SD

- Optical-grade polycarbonate screen cover
- Includes V-Mount Battery Adapter / 4-Pin XLR Power
- On-Screen Display (OSD) and "Blue Gun"

\$2399.00

Physical Specs

| | | | | | |
|-------------|--------------|------------|--------|----------|-------|
| 10.4" | 4:3 | 800x600 | 500 | 500:1 | 2.5" |
| SCREEN SIZE | ASPECT RATIO | RESOLUTION | BRIGHT | CONTRAST | DEPTH |

Inputs

COMPOSITE Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, SDI Loop-Through, DVI, XGA

Features

TALLY

V-R104DP-HD

- Optical-grade polycarbonate screen cover
- Accepts all HD/SD formats/frame rates
- Includes V-Mount Battery Adapter / 4-Pin XLR Power

\$2699.00

Physical Specs

| | | | | | |
|-------------|--------------|------------|--------|----------|-------|
| 10.4" | 4:3 | 800x600 | 500 | 600:1 | 2.5" |
| SCREEN SIZE | ASPECT RATIO | RESOLUTION | BRIGHT | CONTRAST | DEPTH |

Inputs

COMPOSITE Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, HD-SDI Loop-Through, DVI, XGA

Features

TALLY

V-R1041DP-AFHD

- 16.7 million colors
- Wide viewing angles
- Easy-to-see three color tally indicators
- Adjustment Settings Memory

\$2999.00

Physical Specs

| | | | | | |
|-------------|--------------|------------|--------|----------|-------|
| 10.4" | 4:3 | 1024x768 | 300 | 700:1 | 2.5" |
| SCREEN SIZE | ASPECT RATIO | RESOLUTION | BRIGHT | CONTRAST | DEPTH |

Inputs

COMPOSITE Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, HD-SDI Loop-Through, DVI, XGA

Features

TALLY

M-LYNX-15

- 15" 4:3 LCD Monitor
- 3D Comb Filter
- Dynamic Noise Reduction

\$499.00

Lynx

Physical Specs

| | | | | | |
|-------------|--------------|------------|--------|----------|-------|
| 15" | 4:3 | 1024x768 | 350 | 450:1 | 2.7" |
| SCREEN SIZE | ASPECT RATIO | RESOLUTION | BRIGHT | CONTRAST | DEPTH |

Inputs

COMPOSITE x2 Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, DVI, VGA, AUDIO INPUTS x2

M-LYNX-15SDI

- 15" 4:3 LCD Monitor
- 3D Comb Filter
- Dynamic Noise Reduction
- Two SDI inputs with loop-through

\$1499.00

Lynx

V-R151P-4A

- Ultra-compact design
- Built-in Quad Splitter/Sequential Switcher
- Unique 180 degree tilt adjustment while mounted in rack
- Available in NTSC or PAL format

\$2699.00

V-R151DP-AFSD

- 1024 x 768 panel
- 16.7 million colors
- Wide viewing angles
- 450:1 contrast ratio

\$1799.00

V-R151DP-AFHD

- 1024 x 768 panel
- 16.7 million colors
- Wide viewing angles
- HD-SDI input with loop-through

\$1999.00

V-LCD15SB-AFHD-DT

- Super Transflective Outdoor Monitor
- Designed specifically for outdoor applications and challenging viewing environments
- Over 16.7 million colors
- 600:1 contrast ratio

\$2999.00

M-LYNX-17

- 17" 5:4 LCD Monitor
- Contrast: 1000:1
- 3D Comb Filter
- Dynamic Noise Reduction

\$579.00

Lynx

Physical Specs

| | | | | | |
|-------------|--------------|------------|--------|----------|-------|
| 15" | 4:3 | 1024x768 | 350 | 450:1 | 2.7" |

| 17" | 5:4 | 1280x1024 | 300 | 1000:1 | 2.5" |
| SCREEN SIZE | ASPECT RATIO | RESOLUTION | BRIGHT | CONTRAST | DEPTH |

Inputs

COMPOSITE x2 Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, DVI, VGA, AUDIO INPUTS x3

M-LYNX-17SDI

- 17" 5:4 LCD Monitor
- 1000:1 Contrast Ratio
- Dynamic Noise Reduction
- SDI, Composite, S-Video, Component, VGA, DVI

V-R171P-4A

- Unique Ultra Wide Viewing Angle LCD Panel
- Built-in Quad Splitter/Sequential Switcher
- Compact design fits in EIA standard rack 8U high
- Unique 180 degree tilt adjustment while mounted in rack

V-MD171X

- 1920 x 1200 Full Resolution Panel
- Swap and interchange modular inputs at any time
- False Color Filter
- Two available input slots

V-R171X-IMD-HDSI

- "All-in-one" In-Monitor Display solution
- High Resolution 1920 x 1200 panel
- On-Screen Audio Presence Indicator
- On-Screen Video Time Code

QV171X-HDSI

- Native Resolution 1920 x 1200 LCD panel
- Accepts up to 4 HD-SDI input and 1 VGA/DVI high resolution input
- IMD (In-Monitor Display) capability for each input

V-R171X-DLW

- Waveform monitor
- Vectorscope
- Time-code (LTC / VITC)
- 16 channels of audio metering

Physical Specs

| | | | | | |
|-----------------|------------------|----------------------|------------|----------------|------------|
| 17" SCREEN SIZE | 5:4 ASPECT RATIO | 1280x1024 RESOLUTION | 300 BRIGHT | 450:1 CONTRAST | 2.8" DEPTH |
|-----------------|------------------|----------------------|------------|----------------|------------|

Inputs

COMPOSITE x 2 Loop-Through, SDI x 2 Loop-Through, DVI, VGA, AUDIO INPUTS x 3

Physical Specs

| | | | | | |
|-----------------|------------------|----------------------|------------|----------------|------------|
| 17" SCREEN SIZE | 5:4 ASPECT RATIO | 1280x1024 RESOLUTION | 300 BRIGHT | 450:1 CONTRAST | 2.8" DEPTH |
|-----------------|------------------|----------------------|------------|----------------|------------|

Inputs

COMPOSITE x 4 Loop-Through, S-VIDEO Loop-Through, COMPONENT Loop-Through, DVI, VGA

Physical Specs

| | | | | | | |
|-----------------|-------------------|----------------------|------------|----------------|------------|------------|
| 17" SCREEN SIZE | 16:9 ASPECT RATIO | 1920x1200 RESOLUTION | 300 BRIGHT | 500:1 CONTRAST | 6 RU DEPTH | 1.4" DEPTH |
|-----------------|-------------------|----------------------|------------|----------------|------------|------------|

Included Inputs

COMPOSITE Loop-Through, COMPONENT Loop-Through

Optional Inputs

3G-SDI Loop-Through, HD-SDI x 2 Loop-Through, HDMI x 2, DVI, FIBER-OPTIC Loop-Through

Features

NETWORKING, RS-422 CONTROL, TALLY

Physical Specs

| | | | | | | |
|-----------------|-------------------|----------------------|------------|----------------|------------|------------|
| 17" SCREEN SIZE | 16:9 ASPECT RATIO | 1920x1200 RESOLUTION | 300 BRIGHT | 500:1 CONTRAST | 6 RU DEPTH | 1.4" DEPTH |

Inputs

HD-SDI Loop-Through

Features

NETWORKING, RS-422 CONTROL, TALLY

Physical Specs

| | | | | | | |
|-----------------|-------------------|----------------------|------------|----------------|------------|------------|
| 17" SCREEN SIZE | 16:9 ASPECT RATIO | 1920x1200 RESOLUTION | 300 BRIGHT | 500:1 CONTRAST | 6 RU DEPTH | 1.4" DEPTH |
|-----------------|-------------------|----------------------|------------|----------------|------------|------------|

Inputs

HD-SDI x 4 Loop-Through, DVI

Features

IMD, RS-422 CONTROL, TALLY

Physical Specs

| | | | | | | |
|-----------------|-------------------|----------------------|------------|----------------|------------|------------|
| 17" SCREEN SIZE | 16:9 ASPECT RATIO | 1920x1200 RESOLUTION | 300 BRIGHT | 500:1 CONTRAST | 6 RU DEPTH | 1.4" DEPTH |
|-----------------|-------------------|----------------------|------------|----------------|------------|------------|

Inputs

3G-SDI x 2 Loop-Through, DVI

Features

IMD, RS-422 CONTROL, WAVEFORM, VECTORSCOPE, TALLY, CC 608 708 CLOSED CAPTION COMPATIBLE, DUAL LINK COMPATIBLE, 2K COMPATIBLE

V-R185-IMD-TE

- "All-in-one" In-Monitor Display solution
- Three-color on-screen "soft" tally indicators
- 1366 x 768 LCD panel
- On-Screen Audio Presence Indicator

V-MD185

- 1366 x 768 LCD Monitor
- Swap and interchange modular inputs at any time
- False Color Filter
- Two available input slots

M-LYNX-19

- 19" 5:4 LCD Monitor
- 1000:1 Contrast Ratio
- Composite, S-Video, YPbPr, VGA, DVI
- Dynamic Noise Reduction

M-LYNX-19SDI

- 19" 5:4 LCD Monitor
- 1000:1 Contrast Ratio
- SDI, Composite, S-Video, YPbPr, VGA, DVI
- Dynamic Noise Reduction

V-MD201

- 1600 x 900 LCD Monitor
- Swap and interchange modular inputs at any time
- False Color Filter
- Two available input slots

Physical Specs

| | | | | | | |

|-----------------|------------------|----------------------|------------|----------------|----------|
| 19" SCREEN SIZE | 5:4 ASPECT RATIO | 1280x1024 RESOLUTION | 400 BRIGHT | 700:1 CONTRAST | 3" DEPTH |
|-----------------|------------------|----------------------|------------|----------------|----------|

Inputs

COMPOSITE x 2 Loop-Through, SDI x 2 Loop-Through, DVI, VGA, AUDIO INPUTS x 3

Physical Specs

| | | | | | | |
|-----------------|-------------------|---------------------|------------|-----------------|------------|------------|
| 20" SCREEN SIZE | 16:9 ASPECT RATIO | 1600x900 RESOLUTION | 300 BRIGHT | 1000:1 CONTRAST | 7 RU DEPTH | 1.6" DEPTH |
|-----------------|-------------------|---------------------|------------|-----------------|------------|------------|

Inputs

COMPOSITE Loop-Through, COMPONENT Loop-Through

Features

NETWORKING, RS-422 CONTROL, TALLY

Optional Inputs

3G-SDI Loop-Through, HD-SDI x 2 Loop-Through, HDMI x 2, DVI, FIBER-OPTIC Loop-Through

V-R201-IMD-TE

- "All-in-one" In-Monitor Display solution
- 1680 x 1050 LCD panel
- Three-color on-screen "soft" tally indicators
- On-Screen Audio Presence Indicator

\$2299.00

Physical Specs

| | | | | | | |
|-----------------|-------------------|----------------------|------------|----------------|------|----------|
| 20" SCREEN SIZE | 16:9 ASPECT RATIO | 1680x1050 RESOLUTION | 300 BRIGHT | 800:1 CONTRAST | 6 RU | 2" DEPTH |
|-----------------|-------------------|----------------------|------------|----------------|------|----------|

Inputs

- HD-SDI Loop-Through

Features

- NETWORKING
- RS-422 CONTROL
- TALLY

V-R241-IMD-HDSDI

- "All-in-one" In-Monitor Display solution
- High Resolution 1920 x 1200 panel
- On-Screen Audio Presence Indicator
- On-Screen Video Time Code

\$2749.00

Physical Specs

| | | | | | |
|-----------------|--------------------|----------------------|------------|-----------------|------------|
| 24" SCREEN SIZE | 16:10 ASPECT RATIO | 1920x1200 RESOLUTION | 400 BRIGHT | 1000:1 CONTRAST | 2.2" DEPTH |
|-----------------|--------------------|----------------------|------------|-----------------|------------|

Inputs

- HD-SDI Loop-Through

Features

- NETWORKING
- RS-422 CONTROL
- TALLY

V-R241-DLW

- Waveform monitor
- Vectorscope
- Time-code (LTC / VITC)
- 16 channels of audio metering

\$4199.00

Physical Specs

| | | | | | |
|-----------------|--------------------|----------------------|------------|-----------------|-------------|
| 24" SCREEN SIZE | 16:10 ASPECT RATIO | 1920x1200 RESOLUTION | 400 BRIGHT | 1000:1 CONTRAST | 2.15" DEPTH |
|-----------------|--------------------|----------------------|------------|-----------------|-------------|

Inputs

- 3G-SDI x 2 Loop-Through
- DVI

Features

- RS-422 CONTROL
- WAVEFORM
- VECTORSCOPE
- TALLY
- CC 608/708 CLOSED CAPTION COMPATIBLE
- DUAL LINK COMPATIBLE
- 2K COMPATIBLE

QV241-HDSDI

- Native Resolution 1920 x 1200 LCD panel
- Accepts up to 4 HD-SDI inputs and 1 VGA/DVI high resolution input
- VGA/DVI can accept up to 1920 x 1200 resolution
- IMD (In-Monitor Display) capability

\$4999.00

Physical Specs

| | | | | | |
|-----------------|--------------------|----------------------|------------|-----------------|------------|
| 24" SCREEN SIZE | 16:10 ASPECT RATIO | 1920x1200 RESOLUTION | 400 BRIGHT | 1000:1 CONTRAST | 2.2" DEPTH |
|-----------------|--------------------|----------------------|------------|-----------------|------------|

Inputs

- HD-SDI x 4 Loop-Through
- DVI-I

Features

- RS-422 CONTROL
- TALLY

3D-241-HDSDI

- 1920 x 1200 LCD panel
- High quality 3D display with circular polarizing technology
- 4 HD-SDI inputs for simultaneous monitoring two 3SD (right eye / left eye) camera rigs
- 3D, 2D side-by-side, and difference map display options

\$6999.00

Physical Specs

| | | | | | |
|-----------------|--------------------|----------------------|------------------------|-----------------|------------|
| 24" SCREEN SIZE | 16:10 ASPECT RATIO | 1920x1200 RESOLUTION | 2D 400 BRIGHT / 3D 150 | 1000:1 CONTRAST | 2.2" DEPTH |
|-----------------|--------------------|----------------------|------------------------|-----------------|------------|

Inputs

- HD-SDI x 4 Loop-Through
- DVI-I

Features

- RS-422 CONTROL
- NETWORKING
- TALLY

V-R261-IMD-HDSDI

- "All-in-one" In-Monitor Display solution
- High Resolution 1920 x 1200 panel
- On-Screen Audio Presence Indicator
- On-Screen Video Time Code

\$2999.00

Physical Specs

| | | | | | |
|-----------------|-------------------|----------------------|------------|----------------|------------|
| 26" SCREEN SIZE | 16:9 ASPECT RATIO | 1920x1200 RESOLUTION | 500 BRIGHT | 800:1 CONTRAST | 2.1" DEPTH |
|-----------------|-------------------|----------------------|------------|----------------|------------|

Inputs

- HD-SDI Loop-Through

Features

- NETWORKING
- RS-422 CONTROL
- TALLY

QV261A-HDSDI

- Native Resolution 1920 x 1200 LCD panel
- Accepts up to 4 HD-SDI inputs and 1 VGA/DVI high resolution input
- VGA/DVI can accept up to 1920 x 1200 resolution
- IMD (In-Monitor Display) capability for each input

\$5399.00

Physical Specs

| | | | | | |
|-----------------|-------------------|----------------------|------------|----------------|-------------|
| 26" SCREEN SIZE | 16:9 ASPECT RATIO | 1920x1200 RESOLUTION | 500 BRIGHT | 800:1 CONTRAST | 2.17" DEPTH |
|-----------------|-------------------|----------------------|------------|----------------|-------------|

Inputs

- HD-SDI x 4 Loop-Through
- DVI

Features

- RS-422 CONTROL
- TALLY

V-R261-DLW

- Waveform monitor
- Vectorscope
- Time-code (LTC / VITC)
- 16 channels of audio metering

\$4999.00

Physical Specs

| | | | | | |
|-----------------|-------------------|----------------------|------------|----------------|------------|
| 26" SCREEN SIZE | 16:9 ASPECT RATIO | 1920x1200 RESOLUTION | 500 BRIGHT | 800:1 CONTRAST | 2.5" DEPTH |
|-----------------|-------------------|----------------------|------------|----------------|------------|

Inputs

- 3G-SDI x 2 Loop-Through
- DVI

Features

- RS-422 CONTROL
- WAVEFORM
- VECTORSCOPE
- TALLY
- CC 608/708 CLOSED CAPTION COMPATIBLE
- DUAL LINK COMPATIBLE
- 2K COMPATIBLE

V-R371-IMD-HDSDI

- "All-in-one" In-Monitor Display solution without added depth
- High Resolution 1920 x 1200 panel
- On-Screen Audio Presence Indicator
- On-Screen Video Time Code

\$3299.00

Physical Specs

| | | | | | |
|-----------------|-------------------|----------------------|------------|----------------|------------|
| 37" SCREEN SIZE | 16:9 ASPECT RATIO | 1920x1080 RESOLUTION | 550 BRIGHT | 800:1 CONTRAST | 2.3" DEPTH |
|-----------------|-------------------|----------------------|------------|----------------|------------|

Inputs

- HD-SDI Loop-Through

Features

- NETWORKING
- RS-422 CONTROL
- TALLY
