**EAN/UCC:** 8718591670336

Resistant against:

### Description

The camRade cabinBag is a special bag designed to carry on board of any commercial airplane. The bag offers plenty of space for your camera and several accessories.

The bag is made of 1000 denier black Cordura® fabric, has YKK® zippers and a soft-padded blue interior. In here, a removable and foldable divider allows you to create compartments with various heights.

Four soft-padded dividers help you further customize the interior. By adding 4 adjustable pouches, which can be attached with hook and loop fasteners just like the dividers, the possibilities of customizing the bag are almost unlimited.

On the back of the bag a mesh pocket with zipper offers easy view of and access to small items and documents

The bag can be comfortably carried by using the suede top handles or the supplied removable and adjustable suede shoulder strap with soft padding.

### Key features
