

Exo-skeleton

Provides a surrounding chassis for the Ki Pro that can both mount to a tripod and provide a mount for camera on top; this combination allows convenient access to controls.

KiStor USB 3.0 Hard Drive Storage Module

Compatible with all Ki Pro products that use KiStor drives, KiStor USB3.0 storage modules are available in 750GB and 500GB capacities with a USB 3.0 connection for fast file transfers.

KiStor SSD Storage Module

Optional KiStor SSD storage modules are available. The KiStor Solid State Storage Module (SSD) is recommended for mobile environments where shock-proof sturdiness may be needed. KiStor SSD Storage Modules offer the ultimate in media reliability.

KiStor Hard Drive Storage Module

Additional KiStor HDD modules are available. The HDD spinning disk provides maximum capacity at a great price.

KiStor Dock

This external docking station provides both Thunderbolt™ and USB 3.0 connections for ultra-fast file transfers between either PC or Mac host computer and Ki Stor modules. Works with all Ki Stor modules.

Ki Pro Rod Accessory Kit

This kit adds endplates to the Exo-skeleton so you can attach two user-supplied 15mm camera accessory rods. The endplates have knobs for adjusting the height of the rod brackets relative to the camera, as well as a set of knobs for securing the rods in the brackets.
