

**Productname:** camRade wetSuit AJ-PX230

**SKU:** CAM-WS-AJPX230

**EAN/UCC:** 8718591671364

Resistant against:

### Description

The camRade wetSuit AJ-PX230 is a tailor-made rain cover that protects your camera against bad weather conditions.

The soft fabric lining minimalizes unwanted sound effects caused by wind and rain during operation. The cover also reduces the chance of the camera overheating by allowing hot air to escape via the openings.

The viewfinder monitor is protected by a cover with large vinyl windows that provide full view. On the side you'll find a vinyl window that can be opened for easy access to the controls. Under the eyepiece we also added a window that can be opened with hook and loop fasteners. The bottom of the cover can be opened and closed with a double zipper. This way the camera is also protected against water splashing up against the bottom.

This wetSuit is supplied in a waterproof pouch with zipper, which you can use for storage and transportation of the cover when not in active use.
