

Productname: camRade ledpanelBag 16"
SKU: CAM-LEDPB-16
EAN/UCC: 8718591670497

Resistant against:

Description

The camRade ledpanelBag 16" is created for 16" LED panels. This bag can safely carry two 1x1 LED panels. On the inside a divider will help separate the panels and a special compartment is added to store the filters.

The bag is made of 1000 denier Cordura® fabric and YKK® zippers and has a reinforced frame which offers great protection for your gear.

On both sides of the bag pouches with zippers are created with on the inside another pouch to safely store small items such as batteries, cables, etc. On front of the bag you'll find a flap with hook and loop fasteners and two straps with a clip fastener. This flap can be used as a pouch, but once you fold it open, you can also use it to transport your stands.

The bag can be carried by the suede top handles or the supplied removable and adjustable suede shoulder strap with soft padding.
