### Description

The camRade wetSuit XA30/35 is a supple water-resistant rain cover that protects your camera against bad weather conditions. The rain cover is designed for the Canon XA30 and XA35, but can also be used for the older XA camera types.

The soft fabric lining minimalizes unwanted sound effects caused by wind and rain and reduces the chance of the camera overheating by allowing hot air to escape via openings in the cover.

The wetSuit has clear vinyl windows for visibility when adjusting the menu, audio input select level and other controls. The vinyl window over the OLED touch screen can be expanded so you can flip open the screen during operation.

This item will be delivered to you in a waterproof pouch with zipper, which you can use for storage and transportation of the cover when not in active use.
